

Pre-Education 120 Lab Application Information Request

This special lab section is designed for those intending to become educators. As such we are trying to give placement preference to those furthest along in their studies, or who have prior education experience and are confident of their career path. As a last resort, marks may be used to make final decisions. In most years we are able to accommodate all who are interested.

In order to prioritize acceptance into this lab section, please provide us with an outline of your position in your studies, (please include details such as when you plan to apply to education or if you are still thinking about it, if you are fulfilling last prerequisites, etc.). Information about your past teaching experience also helps (tutoring, coaching, assisting etc.). This can be a simple and informal list of information.

In the event that you are not selected for the education lab, we will do our best to accommodate your second choice of lab sections. Please provide a list of second, third and fourth choices of lab sections that would fit your schedule. You may also register now in another lab section as a backup and we will move you to the education section when the lab class list is finalized.

The application information can most easily be accepted by email to duncanj@uvic.ca, or fax to (250) 721-6200, or mail to 120 Education lab application c/o Duncan Johannessen, PO Box 1700, Stn CSC, Victoria BC, V8W 2Y2.

Contact me if you have further questions,
