

# Program Planning Worksheet

## Faculty of Science

Departments of Biology & Psychology

### B.SC. COMBINED MAJOR BIOLOGY & PSYCHOLOGY

How will my coursework be distributed?

- Required courses
- Corequisite courses
- Electives

Year 1 <sup>1</sup>			
Requirements	Units	Course Selection	Done
BIOL 184	1.5		
BIOL 186	1.5		
PSYC 100A	1.5		
PSYC 100B	1.5		
CHEM 101	1.5		
CHEM 102	1.5		
Computer Science (any level)	1.5		
ENGL 135 <sup>2</sup>	1.5		
One of MATH 100, 102, 109, 151	1.5		
Elective <sup>3</sup>	1.5		
Year 2			
BIOL 225 ("C+" minimum)	1.5		
PSYC 201	1.5		
PSYC 205 or 210	1.5		
PSYC 251 or 215A	1.5		
BIOC 299 or 300A <sup>4</sup>	1.5		
CHEM 231	1.5		
CHEM 234	1.5		
PHYS 102A and 102B; or PHYS 110 and 111	3.0		
Elective <sup>3</sup>	1.5		

Years 3 & 4			
Requirements	Units	Course Selection	Done
BIOL 365	1.5		
BIOL 367	1.5		
Three of BIOL 309 or 467, 345, 404, 409B, 432, 447, 448	4.5		
PSYC 351D	1.5		
PSYC 345A	1.5		
One of PSYC 351B or 451D	1.5		
BIOL or PSYC 300/400-level <sup>3,4,5</sup>	3.0		
PSYC 300A and 300B; or STAT 255 and 256; or STAT 260 and 261 <sup>3,4,6</sup>	3.0		
Electives (300/400-level) <sup>3,4,5</sup>	3.0		
Electives (any level) <sup>3</sup>	9.0		
<b>Total Units</b>	<b>60.0</b>		

**WARNING:** This program planning worksheet is an unofficial planning tool intended for students new to UVic. Once your program is declared, the degree evaluation (CAPP report) is the official degree program-tracking document reviewed by Undergraduate Records for graduation eligibility.

Refer to the **University of Victoria Academic Calendar** for a complete list of course selections. Although every attempt has been made to ensure the information on this worksheet is accurate, in the case of any discrepancy the Academic Calendar shall be considered the authority.

EFFECTIVE SEPTEMBER 2019

of Victoria**

Academic Advising  
for Humanities, Science  
& Social Sciences

# Program Notes

Additional information for first-year and current students can be found at [www.uvic.ca/advising](http://www.uvic.ca/advising).

For more information on using the UVic course registration system, visit [www.uvic.ca/course-registration](http://www.uvic.ca/course-registration).

## Reading This Worksheet

This worksheet has been created as a program planning tool for recently admitted, undeclared students. **If you are a current declared student, you must refer to your CAPP report (Degree Evaluation) for the most accurate summary of your remaining program requirements.**

Although this worksheet has been designed according to full-time four-year timeline, students are **not** required to organize their degree according to this timeline and may elect to complete their degree in more than four years, as a part time student, or by taking courses in the Summer Sessions. Refer to [Undergraduate Academic Regulations](#) within the Academic Calendar for more detailed information.

For requirements that offer a selection of courses, there is not always room on the worksheet to include all options. Where a course range is not explicitly listed, or includes an ellipsis ("..."), you should refer to the program requirements for your program in the [Academic Calendar](#) for a complete list of options.

You can find a list of the courses you have already taken at UVic, a list of courses for which you have received transfer credit (if applicable), and a list of the courses you are currently registered in by reviewing your Administrative Transcript on your [My Page](#).

## Pre- and Corequisites

Course prerequisites are listed in Course Descriptions within the [Academic Calendar](#) and must be satisfied before beginning any given course.

"Corequisites" can refer either to Course Corequisites or Program Corequisites. Any listed Course Corequisites must be completed before or at the same time as a given course. Program Corequisites (indicated on this worksheet as **red courses**) refers to required courses offered by schools or departments outside of a student's major school or department.

Make sure to review the individual course and program requirements carefully before registering in order to sequence your program correctly.

## Choosing Electives

Electives (indicated in **Green**) can be chosen from any area of study and taken in any year, as long as you meet the prerequisites. Use these courses to explore different areas of study or include a minor or second major.

## Declaring Your Program

After successfully completing 12.0 units of coursework (including transfer credit), you are eligible to declare your program. To do so, complete the online Request to Declare Program form through your My Page account by visiting [www.uvic.ca/declareme](http://www.uvic.ca/declareme). Transfer students with 12.0 units or more of transfer credit may submit a program declaration form only after they have begun their coursework at UVic. Once your request has been approved, you'll be given access to an online "Curriculum, Advising and Program Planning" (CAPP) report, or "Degree Evaluation", that allows you to track your progress towards degree completion. Your CAPP report is the official record used by the Office of the Registrar to determine your eligibility for graduation.

**UVic Residency Requirement:** In order to graduate, students must complete at least 30.0 of their minimum 60.0 required units at UVic. Within these 60.0 units, 21.0 units must be upper-level (300/400-level) courses, and 18.0 of those 21.0 units must be taken at UVic.

## Footnotes

1. It is important to do the Psychology courses in the appropriate year, and to complete ENGL 135 early in your program; the co-requisites and electives can be spread out over the four years depending on when they are offered and how they fit into your timetable.
2. ENGL 135 is required regardless of having already satisfied the [Academic Writing Requirement \(AWR\)](#) from Secondary School. If you have **not** yet satisfied the AWR, ENGL 135 will satisfy it. If you already have credit for a course that satisfies the AWR (other than ACWR 10L transfer credit), please contact your Academic Adviser.
3. **In order to graduate with a degree in the Faculty of Science, students must have received credit for at least 33 units of science courses (Definition of a Science Course). Be sure to include this requirement when selecting your courses.**
4. **Students must complete a minimum of 21.0 units of 300/400-level coursework in order to graduate. Be sure to include this requirement when selecting your courses.**
5. Students interested in a graduate degree in Psychology are advised to take PSYC 400A and/or 405 as electives.
6. Students planning to do an Honours thesis or a graduate degree in Psychology are advised to take PSYC 300A and 300B.

## Student Responsibility

**You are responsible for the completeness and accuracy of your registration and for determining the requirements of your program.**

Always read course descriptions before you register to determine if you have the necessary prerequisites, and pay attention to notes on mutually-exclusive and cross-listed courses (pairs of courses in which credit will be awarded for only one).

## Student Year Standing

Units Complete	Standing
0 – 11.9	First Year Standing
12 – 26.9	Second Year Standing
27 – 41.9	Third Year Standing
42 or more	Fourth Year Standing
