ANTHROPOLOGY COLLOQUIUM SERIES

Advancing the UN SDGs through the CIFAL Global Network

Dr. Crystal Tremblay

Assistant Professor, Department of Geography, UVic

Monday, February 6th, 2023

11:30 am – 12:50 pm

Cornett A129 & via [Zoom](#)

CIFAL Victoria Director Dr. Crystal Tremblay (Geography) will share updates on CIFAL Victoria, a United Nations accredited research and training centre created in 2021 in partnership with the University of Victoria and the United Nations Institute for Training and Research. The CIFAL Global Network consists of a series of globally located hubs, managed by the host institutions, that aim to build the capacity of individuals, organisations, institutions and communities through education and research to enact the United Nations 2030 Agenda for Sustainable Development and the Sustainable Development Goals (SDGs). CIFAL stands for Centre International de Formation des Autorités et Leaders”.

The mission of CIFAL Victoria is to build capacity, support community-driven innovations and strengthen partnerships in four interconnected and cross-cutting thematic areas including:

- Oceans, climate, and sustainability
- Indigenous knowledges and rights
- Global health and community well-being; and
- Innovation and entrepreneurship

You will hear about opportunities to partner with CIFAL Victoria, and the process of accreditation of undergraduate/postgraduate courses and short courses/specialized training.
