## Course Content

Extensive practice in written technical and non-technical composition. Basic grammar is reviewed, including sentence syntax, punctuation, and paragraph construction. Students will be exposed to the correct style for the various documents they are likely to encounter. Students will learn how to write clearly and concisely. The course will conclude with student presentations.

**Important Note:** I may instruct the department to drop any student who fails to attend the course within the **first 7** calendar days from the start of the course. I will be taking attendance in those classes. Students who cannot attend those first few classes but wish to remain in the course should file a request for academic concession with the instructor.

## Learning Outcomes

**Students will learn how to write clearly and concisely. They will view writing as a constrained optimization problem. They will learn how to give a clear presentation by engaging the audience without the aid of PowerPoint, charts, or other props.**

## Course prerequisites/corequisites

Students satisfy the ECON 225 course requirement if they have passed ENGR 240.

## Mandatory/Essential Course Components

### Examinations

Students who wish to finalize their travel plans should book flights that depart after the end of the final test. There will be no special accommodation if travel plans, family wedding plans, and so on, conflict with the final test. **Missed midterms: Make-up exams for tests will not be given.** In the event that you miss one midterm due to illness or family affliction, the weight of the missed test will be shifted to the final test. **In the event that you miss a second test due to illness or family affliction, please consult the Academic Concessions portion of the Registrar's website to determine whether you qualify for a late drop or a withdrawal under extenuating circumstances.** All exams are essential course requirements, meaning, they must be attempted in order to pass the course.

The final test and the presentation are required components of the course. Failure to complete the final test or the presentation will result in a grade of "N" regardless of the cumulative percentage on the course. N is a failing grade and factors into GPA as a value of 0."]

### Grading Scale

A+	A	A-	B+	B	B-	C+	C	D	F or N
90-100	85-89	80-84	77-79	73-76	70-72	65-69	60-64	50-59	0-49

Students should review the University's more detailed [summary of grading](#).

### Missing Assessments

Should students encounter a situation where they miss an exam or cannot submit an assignment at its due date, they may qualify for an academic concession. Students are required to indicate the specific grounds on which they are requesting an academic concession and to provide a justification outlining the impact of the circumstances on their ability to complete course requirements. For in-course extensions, please [fill in the form and follow the instructions on the form](#) [or specify alternative means of communicating a request such as filling in a request on Brightspace]. I will not respond to informal requests of academic concessions. [Note any automatic academic concessions such as putting the weight of a missed midterm for a legitimate reason on the final, dropping the two worst grades of quizzes etc.] In case you miss the final exam, fill in a [request for a deferral](#).

Students are advised not to make work or travel plans until after the examination timetable has been finalized. Students who wish to finalize their travel plans at an earlier date should book flights that depart after the end of the examination period. Students do not qualify for an academic concession if travel plans conflict with the examination.

## Course Experience Survey (CES)

I value your feedback on this course. Towards the end of term you will have the opportunity to complete a confidential course experience survey (CES) regarding your learning experience. The survey is vital to providing feedback to me regarding the course and my teaching, as well as to help the department improve the overall program for students in the future.

When it is time for you to complete the survey, you will receive an email inviting you to do so. If you do not receive an email invitation, you can go directly to the [CES log-in](#). You will use your UVic

NetLink ID to access the survey, which can be completed on your laptop, tablet or mobile device. I will remind you nearer the time, but please be thinking about this important activity, especially the following three questions, during the course.

What strengths did your **instructor** demonstrate that helped you learn in this course?

Please provide specific suggestions as to how the **instructor** could have helped you learn more effectively.

Please provide specific suggestions as to how this **course** could be improved.

## E-mail Correspondence

Emails should be limited to critical matters, such as inability to attend class, an exam, or prolonged illness, and should include the course name and number in the subject line. Questions on course material should be asked during office hours or in class. The standard format for writing a letter must be used. This means it should begin with a salutation (e.g. Dear....), include full sentences, and conclude with a signature that includes your **full name and V#**. Text message lingo and generative AI should not be used in emails.

## Electronic Devices

Phones must be put on silent mode during class and put away. Phones may not be used or checked during class. If you need to text or make a call, you can go outside the classroom. Computers or tablets may not be used in class and must be closed. All notes will be taken by hand.

## Use of AI

The use of AI in Econ 225 is not necessary since all graded coursework is completed in class. Every so often we may informally discuss the implications for humans of AI—for example, we may discuss information capitalism in the work of social philosopher Byung-Chul Han.
