- This document is for informational purposes only and is not all encompassing. Students should read the University Calendar and review their CAPP report (degree evaluation report) for information specific to their program. Students are responsible for the completeness and accuracy of their registration and for determining the requirements of their program (i.e. course prerequisites, minimum program and grade requirements, MX and cross-listed course notations).
- The program worksheets are intended to be the most direct route to receive a BA or BSc Honours degree, but other schedules can be followed as long as you meet the course requirements by the end of the second term in year 3.
- See Pro-Tips for other helpful information from former students that have successfully completed the honours program.

¹ CSC 105 is intended primarily for students in Economics or the School of Business. For Honours, we recommend CSC 110 or 111.

² To satisfy UVic's Academic Writing Requirement, complete one of ATWP 135 (formerly ENGL 135), ENGL 146, ENGL 147 or another approved course.

³ The Mathematics requirement can also be satisfied by the completion of MATH 100 or 109, 101, 200 and 211 or 110 (6.0 units in total). (MATH 208 can be substituted with MATH 101, 200, and 211 or 110.) Mathematics requirements should normally be completed by the end of Year 2.

⁴ A course in statistics or quantitative methods will not count toward this requirement.

⁵ SOSC 300 can be substituted for 1.5 units.

⁶ ECON 225 should normally be completed by the end of Year 2 and is a pre- or co-requisite for many 300-level courses and all 400 level courses.

⁷ Transfer students are encouraged to enrol in ECON 313 as soon as possible.

⁸ Students in the BA program require permission from the department to register in ECON 400 (and 401).
