Course Content

This course provides a general introduction to the economics of government expenditures and taxation. We will consider the role of government in the economy and use economic analysis to predict and verify the effect of government intervention on the behaviour of individuals, households, and firms. We will examine public goods, externalities, and information asymmetries, as well as market failures resulting from these conditions and policies to address those market failures. We will discuss the implications of policy for efficiency and equity. Throughout the course, relevant Canadian, United States, and other international public policy will be discussed.

Textbook

The required text is **Public Finance in Canada (5th edition)** by Harvey S. Rosen, Jean-Francois Wen, and Tracy Snoddon. Some sections of the text are more difficult than the material that will be covered in the lectures, so the pages and sections that should be read in each chapter will be provided.

Students can purchase the e-book through the UVic Bookstore. After the e-book is purchased, students will be provided access to Connect, which is an online learning platform that is used in the course. The document "Connect_Quick_Start_Guide" on Brightspace provides instructions on how to register to use McGraw Hill Connect. In addition to the e-book, students can purchase looseleaf text of the book for an additional \$30 if a printed version of the book is desired.

Supplementary readings from outside of the textbook will be provided as PDFs on the Brightspace page.

Grading

Given student performances on the requirements listed below, final grades will be assigned based on the university's grading scale.

A+	A	A-	B+	B	B-	C+	C	D	F or N
90-100	85-89	80-84	77-79	73-76	70-72	65-69	60-64	50-59	0-49

Grading Scale:

Students should review the University's more detailed [summary of grading](#).

This course is designed to provide students opportunities to improve their grades based on effort. The table below lists each course requirement that will determine a student's final grade.

Item/Requirement	Number	Date of requirement	Weight
Reading questions	10	Completed before the beginning of class on Tuesday	15%
Discussion section exercises	9	Completed during Friday sessions as indicated by the course calendar	15%
Midterm 1	1	October 11 th , 2022	20%
Midterm 2	1	November 8 th , 2022	20%
Final exam	1	TBD	30%

Below is a description of each requirement with late/missing penalties described.

1. **Reading questions** – There will be ten online reading assignments (question sets) that each student needs to complete online through Smartbook on McGraw Hill Connect. These assignments need to be completed before Tuesday class each week (beginning September 13th and ending on November 19th), unless an exam is scheduled on the Tuesday. The question sets will typically take 15-20 minutes to complete and will be based on the assigned readings from Public Finance in Canada. The reading assignment will be made available on the Friday before the reading assignment is due. If a student completes the reading assignment, they will receive full credit for the assignment.

Reading assignments that are not completed by the due date cannot be made up.

2. **Discussion section exercises (15%)** – Unless noted in the calendar below, Fridays serve as a discussion section during which we will do practice problems together, complete class experiments, or have small group discussions. On discussion section days, students will receive a discussion section exercise that they complete and submit during our meeting together. Additionally, some portion of the class time may be used to cover lecture material during Friday discussion sections.

If a student misses a discussion section exercise because of an unexcused absence, they will receive a zero. If a student misses because of an excused absence, they can meet the instructor to complete the exercise at a later date.

3. **Midterm 1 (20%), Midterm 2 (20%), and Final Exam (30%)** - Participation for all scheduled examinations is mandatory. Consideration for missed examinations will be given only on the basis of documented illness, accident or family affliction, and for no other reasons. In the event of a missed final examination, students are advised to follow the procedures outlined in the [University Calendar](#).

Students are advised not to make work or travel plans until after the examination timetable has been finalized. First Term (December) exam timetables are posted at the end of October. Students who wish to finalize their travel plans at an earlier date should book flights that depart after the end of the examination period. There will be no special accommodation if travel plans conflict with the examination.

All exams are essential course requirements, meaning, they must be attempted in order to pass the course.
