

COURSE OUTLINE
Introduction to Physical Geography

This course introduces the science of Physical Geography using an earth-systems approach. Course themes include global climates and climate change, hydrology and water resources, geomorphology and natural hazards, and biogeography; with focus on how geographic sciences are applied to address real world issues.

Class Meetings:	Mondays and Thursdays 10:00 to 11:20 am			
Classroom:	Hickman Building 105			
Lab Information:	B01	Monday	11:30 am – 1:20 pm	DTB B303
	B02	Monday	2:30 – 4:20 pm	DTB B303
	B03	Tuesday	12:30 – 2:20 pm	DTB B303
	B04	Tuesday	4:30 – 6:20 pm	DTB B303
	B05	Wednesday	1:30 – 3:20 pm	DTB B303
	B06	Wednesday	4:30 – 6:20 pm	DTB B303
	B07	Thursday	11:30 am – 1:20 pm	DTB B303
	B08	Thursday	4:30 – 6:20 pm	DTB B303
	B09	Friday	12:30 – 2:20 pm	DTB B303

INSTRUCTOR INFORMATION

Dr. Shannon Fargey, Department of Geography, **DTB B308**, fargey@uvic.ca or 250-721-7342
When emailing me please include 'GEOG 103: your name: brief subject' in the subject line, this helps me sort through emails and makes it easier to respond to your message.

Office Hours: Mondays 1:30 to 3:30 pm or *by appointment*.

I welcome you to come and discuss your ideas and questions at times other than office hours, I have an open-door policy.

Profile: I am an Assistant Teaching Professor in the Geography Department. My role in the Department is primarily on program delivery, supporting student learning and discovery in Physical Geography and Geomatics. I am passionate about hydro meteorological topics and field based learning. To learn more about me, and stay updated with exciting new studies in our field, please visit my website shannonfargey.com and follow me on Twitter @fargetmenot

LEARNING OUTCOMES

1. Understand Physical Geography elements using an earth-system approach
2. Build a strong knowledge foundation in Physical Geography elements on which you can rely for success in upper level and advanced topics in Geography or other disciplines
3. Better understand the intersection between geographic sciences and human activities while also learning how geographic sciences are applied to address real world issues
4. Acquire a strong academic skills foundation, specifically research (to find the resources you need, to collect, analyze and interpret data and to present it effectively) and communication (in writing for different audiences, presenting and working collaboratively in teams)

Attending class regularly throughout the term is integral to successfully completing this course.

REQUIRED TEXTS

Geosystems (2016), 4th Canadian Edition, by: R. Christopherson, M-L. Byrne, & P. Giles

The majority of your readings will come from the required textbook. Use of older editions of the textbook is acceptable, however assigned readings (pages and chapters) and learning activities will reference the 4th edition only. If you use an older edition, you are responsible for matching content between books and making up any material that is found in the new edition. Additional readings and learning resources will be provided throughout the course.

EVALUATION

Laboratory Assignments x 5	35%
Midterm Exam (Oct 18th in class)	15%
Laboratory Exam (during Exam period)	15%
Final Exam (during Exam period)	35%

Exam Format: The questions for the midterm exam and final exam will be based on lectures, readings and class discussion. The midterm test will cover only the topics discussed immediately preceding it. The final exam is comprehensive, but will be weighted more heavily on material not previously tested on. Format includes a combination of multiple-choice and short-answer questions. Examples will be provided in class. The lab exam is comprehensive based on lab assignments, background material and lab discussions.

COURSE COMMUNICATION

CourseSpaces learning management systems (LMS) will serve as the main avenue of communication in this course (<http://coursespaces.uvic.ca>). This is where I will put important resources that I think will help you along including course information, topic handouts, important dates, announcements, lab materials, and TA information (email addresses and office hours). Please go here first and visit often. If you are having difficulty logging in or password problems, contact the Computer Help Desk Email: helpdesk@uvic.ca, Tel: 250-721-7687

GEOGRAPHY DEPARTMENT INFORMATION

Geography Department website: <http://geog.uvic.ca>

Undergraduate Advisor: Dr. Phil Wakefield geogadvisor@uvic.ca

Department Chair: Dr. Johannes Feddema geogchair@uvic.ca

GRADING SYSTEM

As per the Academic Calendar:

Grade	Grade point value	Grade scale	Description
A+ A A-	9 8 7	90-100% 85-89% 80-84%	Exceptional, outstanding and excellent performance. Normally achieved by a minority of students. These grades indicate a student who is self-initiating, exceeds expectation and has an insightful grasp of the subject matter.
B+ B B-	6 5 4	77-79% 73-76% 70-72%	Very good, good and solid performance. Normally achieved by the largest number of students. These grades indicate a good grasp of the subject matter or excellent grasp in one area balanced with satisfactory grasp in the other area.
C+ C	3 2	65-69% 60-64%	Satisfactory, or minimally satisfactory. These grades indicate a satisfactory performance and knowledge of the subject matter.
D	1	50-59%	Marginal Performance. A student receiving this grade demonstrated a superficial grasp of the subject matter.
F	0	0-49%	Unsatisfactory performance. Wrote final examination and completed course requirements; no supplemental.
N	0	0-49%	Did not write examination or complete course requirements by the end of term or session; no supplemental.

IMPORTANT COURSE POLICIES

Students are expected to attend all lectures and labs, take notes and be punctual. A high level of student cooperation and participation, involving asking and answering questions is expected.

Students must complete all evaluation components to obtain credit. Failure to complete an any evaluation component without permission from the instructor, will result in an 'N' grade, which equals a Grade Point Value of 0.

Topic handouts based on lecture presentations will be provided before the beginning of class meetings on CourseSpaces. These handouts will be removed 7 days after the posting date. Students are responsible for downloading/saving and completing notes packages. *If you miss any material, make arrangements to get handouts from a fellow student, not from the instructor.*

Late assignments will be penalized 20% per day (including weekends and holidays). Exceptions will only be granted for documented medical or compassionate reasons. Please inform the instructor of your situation promptly and present written proof within five working days. *Only the course instructor can grant exceptions.*

Students will not be permitted to write make-up tests except for documented medical or compassionate reasons. Any make-up test or examination may not follow the same format as the in-class one. Please inform the instructor of your situation promptly and present written proof within five working days. *Only the course instructor can grant exceptions.*

As an Instructor, I can refuse a student admission to a lecture, laboratory, learning activity or exam because of lateness, misconduct, inattention or failure to meet the responsibilities of the course. Students who neglect their academic work may be assigned a final grade of 'N' (which equals a Grade Point Value of 0) or debarred from final examinations. Please refer to the UVic academic calendar in the section on student academic conduct for further information.

Cell phones must be turned off or silenced during lectures and labs and ONLY be used during field activities if pertinent to do so.

Conflicts with holidays or travel plans are not considered an acceptable reason to apply for a deferred exam or assignment extension.

Please attend only the laboratory section for which you are registered. If you must miss a lab for exceptional circumstances, please make arrangements with your TA and Instructor in advance to attend another section. In this situation, you may be asked to attend a specific lab section because of space requirements and this may result in you missing content from other classes. This however does not change the due date of your lab assignment.

Details regarding your labs and their marks are managed by the course TAs. Please discuss any issues or questions on labs with your TA first and then come to see me if you would like further clarification.

Unless otherwise stated students are expected to complete assignments independently.

PLAGIARISM

Academic dishonesty (plagiarism, cheating) is a very serious matter in any academic institution and is dealt with severely at the University of Victoria. *The responsibility of the institution:* Instructors and academic units have the responsibility to ensure that standards of academic honesty are met. By doing so, the institution recognizes students for their hard work and assures them that other students do not have an unfair advantage through cheating on essays, exams, and projects. *The responsibility of the student:* Plagiarism sometimes occurs due to a misunderstanding regarding the rules of academic integrity, but it is the responsibility of the student to know them. If you are unsure about the standards for citations, for referencing your sources, or unauthorized use of an editor, please familiarize yourself with the University policy on academic integrity found in the Undergraduate Calendar at the following website. <http://web.uvic.ca/calendar/undergrad/info/regulations/academic-integrity.html>. Please contact me if you have any questions.

Infractions will be dealt with in accordance with University policy. Commonly, the penalty for any form of cheating/plagiarism is a grade of F on the tests or laboratory assignments, or a final grade of F in the course. However, depending on the severity of the case other penalties may include a record on the student's transcript or expulsion.

ACCESSIBILITY

Students with diverse learning styles and needs are welcome in this course. In particular, if you have a documented disability/health consideration that may require accommodations, please feel free to approach me and/or the Centre for Accessible Learning (CAL) as soon as possible. The CAL staff are available by appointment to assess specific needs, provide referrals and arrange appropriate accommodations <http://www.uvic.ca/services/cal/>. The sooner you let us know your needs the quicker we can assist you in achieving your learning goals in this course.

POSITIVITY AND SAFETY

The University of Victoria is committed to promoting, providing and protecting a positive and safe learning and working environment for all its members. To ensure that all class members feel welcomed and equally able to contribute to class discussions, we will all endeavour to be respectful in our language, our examples, and the manner in which we conduct our discussions and group work. If you have any concerns about the climate of the class, please contact me.

COURSE EXPERIENCE SURVEY (CES)

We value your feedback on this course. Towards the end of term, as in all other courses at UVic, you will have the opportunity to complete an anonymous survey regarding your learning experience (CES). The survey is vital to providing feedback to me regarding the course and my teaching, as well as to help the department improve the overall program for students in the future. The survey is accessed via MyPage and can be done on your laptop, tablet, or mobile device. I will remind you and provide you with more detailed information nearer the time but please be thinking about this important activity during the course.

Tentative Schedule

Topic 1: Introductory Concepts

Topic 2: Global Climate & Climatic Change

Topic 3: Global Water

Topic 4: Natural Hazards and the Dynamic Planet

Topic 5: Biogeography

Lecture and Course Readings

Week	Dates	Topic
1	Sept 6	Topic 1: Introductory concepts of Physical Geography;
2	Sept 10, 13	Topic 1: continued Topic 2: Global Climates and Climate Change
3	Sept 17, 21	Topic 2: Climate continued Topic 2: The Atmosphere and Circulation
4	Sept 24, 27	Topic 3: Introduction to the hydrosphere Topic 3: Storms and precipitation
5	Oct 1, 4	Topic 3: Rivers systems, flooding and fluvial landscapes
6	Oct 8, 11	<i>Oct 8 No class (Thanksgiving)</i> Topic 3 Fluvial continued
7	Oct 15, 18	Topic 3: Groundwater <i>October 18th – Midterm Exam</i>
8	Oct 22, 25	Topic 3: Glacial and periglacial processes, landscapes and hazards
9	Oct 29, Nov 1	Topic 4: Introduction to the lithosphere Topic 4: Slope Systems and Mass wasting
10	Nov 5, 8	Topic: Mass Wasting cont. Topic 4: Coastal processes, landforms and hazards
11	Nov 12, 15	<i>Nov 13 - Reading Break</i> Topic 5: Weathering and soils
12	Nov 19, 22	Topic 5: Introduction to Biogeography
13	Nov 26, 29	Topic 5: Island biogeography and Special Topics in biogeography
14	Dec 3, 6	Catch-up and Review

LAB SCHEDULE

The laboratory component of this course is supported by a number of Teaching Assistants (TAs) and Phil Wakefield (Senior Laboratory Instructor - Physical Geography). You can find all lab assignment and supporting material along with their contact information and office hours on CourseSpaces.

Week	Dates	Description
1	Sep 5-7	No scheduled labs
2	Sep 10-14	Orientation and Mt. Tolmie field trip
3	Sep 17-21	Lab #1: Climatology Lab
4	Sep 24-28	Open lab time; TA office hours
5	Oct 1-5	Lab #2: Hydrology Lab – Lab #1 due
6	Oct 8-12	Open lab time; TA office hours
7	Oct 15-19	Lab #3: Stream Table (paired report) – Lab #2 due
8	Oct 22-26	Open lab time; TA office hours
9	Oct 29-Nov 2	Lab #4: Glacial Change Detection
10	Nov 5-9	Open lab time; TA office hours –Labs #3 due
11	Nov 12-16	No scheduled labs – Reading Break
12	Nov 19-23	Lab #5: Coastal Geomorphology – Lab #4 due
13	Nov 26-30	Lab #5 due beginning of lab time & Lab Evaluations

Lab Assignments (35%)

Lab 1 (7.5%), Lab 2 (5.5%), Lab 3 (10%), Lab 4 (7%), Lab 5 (5%)

Please note: Assignments will be considered late if handed in any time after the first 15-minutes of the start of the scheduled lab time. If you are unable to attend the lab due to an exceptional circumstance to submit your assignment, you may submit to the course dropbox outside the Geography general office (DTB B203). However, it is your responsibility to inform your TA that you submitted to that location. If you don't late penalties may be applied.

DISCLAIMER

The presented schedules, policies, procedures, and assignments in this course are subject to change in the event of extenuating circumstances.

University of Victoria Important Dates

Sept 22 – Last day for adding courses that begin in the first term.

Oct 31 - Last day for withdrawing from first term courses without penalty of failure

Additional important dates can be accessed through the link below.

<http://web.uvic.ca/calendar/general/dates.html>
