

Volume 10 Themes on Pacific Lands

edited by
M.C.R. Edgell and
B.H. Farrell

The first volume in the series to focus on problems peripheral to, or outside Canada includes discussion of conflicts concerning settlement in Malaysia; crowding in Hong Kong; land ownership in Fiji; alternative land uses in Hawaii, and Pacific Fisheries. Two articles act as a bridge between the Pacific and Canada: Vancouver's Pacific trade connections and the varying interrelations between forests and human recreation in southeast Australia and British Columbia.
