Course Outline
The European Union (EU) consists of 28 European countries with a population of more than 500 million people. It has evolved from a European Economic Community of six Western European member states into a political community that influences the daily lives of its citizens and many outside its borders; it also now faces the first instance of a member-state (the UK) choosing to leave. How can we explain the evolution and process of European integration? What does the political structure and institutional organization of the EU look like? And what are some of the main challenges facing the EU?

This course gives an introduction of the history, policies and challenges facing the EU. It examines the basic structures and processes of EU governance. Special emphasis is placed on the rationale for integration (theoretical concepts and approaches), institutions, actors, policies and policy-making. The course also examines a number of current events and recent challenges facing the EU. Some of these topics include Brexit, the issue of enlargement of the EU (recent past and future), the migrant crisis, as well as issues surrounding the financial crisis and related economic considerations. The course will follow the political and economic developments taking place within the EU throughout the duration of the course. Thus, students are encouraged to follow the news during the semester.

By the end of this course, students should be able to:
- Understand the historical context that led to the formation of the European Union
- Understand the theoretical political science concepts of European integration and consider their applicability over time
- Demonstrate the ability to discuss and analyze critically, both verbally and in writing
- Exhibit the necessary tools and skills for writing a good research paper

Readings
There is one assigned textbook for this course: Emmanuel Brunet-Jailly, Achim Hurrelmann, and Amy Verdun (editors), European Union Governance and Policy-Making: A Canadian Perspective, 2018, University of Toronto Press.
Additional readings will be provided on CourseSpaces or as handouts. All readings listed in the course syllabus are required for lectures and tutorials. It is suggested that students should also keep abreast of current international events, by reading a daily international news source (e.g. BBC, EUobserver.com, etc.) and/or news magazine (e.g. The Economist, Macleans, etc.).

1. The percentage grading scale applies to all Faculties at the University of Victoria.
2. The percentage grades should be associated with a letter grading schema.
3. A percentage grade for an N grade should be assigned in the following manner:

**N grade percentage range 0-49**: In cases where a student who has not completed the exam or has not completed the course requirements but has submitted course requirements that total more than 49% of the total grade for a course, an instructor will assign a percentage grade of 49%.

Plagiarism and Academic Integrity (adapted from Teaching and Learning Centre material):
Academic integrity is intellectual honesty and responsibility for academic work that you submit individually or as a member of a group. It involves commitment to the values of honesty, trust and responsibility. It is expected that students will respect these ethical values in all activities related to learning, teaching, research and service. Therefore, plagiarism and other acts against academic integrity are serious academic offences. In this context, be advised that I reserve the right, in my capacity as the instructor of this course, to employ plagiarism-detection software (such as Turnitin) in cases of suspected plagiarism. Please see the (revised) academic integrity policy:
http://web.uvic.ca/calendar2017-09/undergrad/info/regulations/academic-integrity.html

The responsibility of the institution - Instructors and academic units have the responsibility to ensure that standards of academic honesty are met. By doing so, the institution recognizes students for their hard work and assures them that other students do not have an unfair advantage through cheating on essays, exams, and projects.
The responsibility of the student - Plagiarism sometimes occurs due to a misunderstanding regarding the rules of academic integrity, but it is the responsibility of the student to know them. If you are unsure about the standards for citations or for referencing your sources, ask your instructor. Depending on the severity of the case, penalties include a warning, a failing grade, a record on the student’s transcript, or a suspension. It is your responsibility to understand the University’s policy on academic integrity, which can be found on pages 44-47 of the undergraduate calendar.

Course Experience Survey (CES)
I value your feedback on this course. Towards the end of term you will have the opportunity to complete a confidential course experience survey (CES) regarding your learning experience. The survey is vital to providing feedback to me regarding the course and my teaching, as well as to help the department improve the overall program for students in the future. When it is time for you to complete the survey, you will receive an email inviting you to do so. If you do not receive an email invitation, you can go directly to http://ces.uvic.ca. You will need to use your UVic NetLink ID to access the survey, which can be done on your laptop, tablet or mobile device. I will remind you nearer the time, but please be thinking about this important activity, especially the following three questions, during the course.

1. What strengths did your instructor demonstrate that helped you learn in this course?
2. Please provide specific suggestions as to how the instructor could have helped you learn more effectively.
3. Please provide specific suggestions as to how this course could be improved.

Accommodation
If arrangements need to be made regarding any type of accommodation please see Dr. D’Erman at the beginning of term. The instructors (not the TAs) will sign any forms. Please see the Resource Centre for Students with a Disability for more information http://rcsd.uvic.ca/.

Teaching Assistants
Teaching Assistants will hold weekly office hours, which is the best time to consult with them. If you have a question about tutorial or lecture, please speak with your TA during your TA’s office hours. If after doing so the question is unresolved, then please see the instructor.

Registration Matters
It is each student’s responsibility to add, drop, or withdraw from the course as appropriate, and to adhere to university deadlines.

**Courtesy rules**
We all like to use our cell phones and other electronic devices. In the classroom it is important that you only use electronic devices for the purpose of learning for the class. You are asked not to watch other things on your device, as doing so may distract yourself as well as others around you. It is also expected that you turn off your cell phone, or put it to silent, so as not to disturb your fellow students.

In the spirit of collegiality, please make every effort to come to class on time so as not to disrupt the class with late arrival, and that you avoid leaving early. The classroom doors are at the front of the class, so latecomers (or early leavers) distract the class and the professor. If you are late, please be courteous and enter through the door at the back of the lecture hall. Talking during the professor’s lecture distracts those around you. Thank you for being polite—we all appreciate it!
