Cognition and Brain Sciences Seminars

3:00 - 4:20 PM, Fridays
Cornett A228

The Cognition and Brain Sciences (CaBS) program hosts a weekly seminar series (CaBSSem) most Friday afternoons from September through April. About two thirds of the sessions are dedicated to presentations by faculty and/or grad students in our program; the remaining third feature talks by visiting researchers.

Anyone with an interest in cognitive psychology, cognitive neuroscience, cognitive science, or generally anything cognitive, is welcome and encouraged to attend.

If you would like to receive the weekly CaBSSem announcement, which typically includes an abstract for the upcoming talk, and you are not already receiving it through the Psychat or Neuroscience mailing lists, you can [subscribe to the CaBSSem mailing list](mailto:cabssem@lists.uvic.ca) (cabssem@lists.uvic.ca).

Current Schedule:

Date	Speaker	Title
06 September, 2013	<i>Get acquainted</i>	
13 September, 2013	Kyle Mathewson	Human Optophysiology
20 September, 2013	Adam Krawitz	Individual differences in risky decision making
27 September, 2013	Clay Holroyd	Hierarchical control over effortful behavior by anterior cingulate cortex
04 October, 2013	Simen Hagen	The Detail of Perceptual Expertise
11 October, 2013	Alejandra Zaragoza Scherman	Event Centrality and Emotional Distress Across Cultures
18 October, 2013	Jose Fernandes	Decision making in sub-tasks
25 October, 2013	Daniel Bub & Bernie Till	Hand and Mind: Ventral stream influences on reach-and-grasp actions using conformal geometrical algebra.
01 November, 2013	Ipek Oruc	Does size matter? A tale of two processes in face recognition
08 November, 2013	Jeremy Carpendale	Accounting for Meaning in Human Thinking: The Development of Pointing Gestures in Infancy
15 November, 2013	Closed for PS	
22 November, 2013		
29 November, 2013	Mario Baldassari	Predicting and/or Improving Eyewitness Identification Performance
06 December, 2013	Dan Bernstein	Perspective-taking Errors Across the Lifespan
