Cognition and Brain Sciences Seminars

3:00 - 4:20 PM, Fridays
Cornett A228

The Cognition and Brain Sciences (CaBS) program hosts a weekly seminar series (CaBSSem) most Friday afternoons from September through April. About two thirds of the sessions are dedicated to presentations by faculty and/or grad students in our program; the remaining third feature talks by visiting researchers.

Anyone with an interest in cognitive psychology, cognitive neuroscience, cognitive science, or generally anything cognitive, is welcome and encouraged to attend.

If you would like to receive the weekly CaBSSem announcement, which typically includes an abstract for the upcoming talk, and you are not already receiving it through the Psychat or Neuroscience mailing lists, you can [subscribe to the CaBSSem mailing list](mailto:cabssem@lists.uvic.ca) (cabssem@lists.uvic.ca).

Current Schedule:

Date	Speaker	Title
05 September, 2014	Yukio Itsukushima, Nihon Univ.	The psychology of eyewitness testimony: Lessons from 25 years of expert testimony in real crime cases
12 September, 2014	Mike Dixon, Univ. of Waterloo	Disguising losses as wins in modern multiline slot machines
19 September, 2014	José Ribas-Fernandes	Connecting episodic memory and planning
26 September, 2014	Olav Krigolson	Thinking Fast, Thinking Slow... Thinking Alpha... Electroencephalographic Evidence for System I and System II Decision Making
03 October, 2014	Cameron Hassall	Electroencephalographic evidence for the sparsity heuristic
10 October, 2014	Mario Baldassari	A binary screening question for eyewitness lineups
17 October, 2014	Cassandra Brown	Functional magnetic resonance imaging and functional near-infrared spectroscopy: Insights from simultaneous recording studies
24 October, 2014	Alison Campbell	Budgies are special: Testing the process-specificity hypothesis of face processing
31 October, 2014	Simen Hagen	Exploring expert object recognition by the means of fast periodic visual stimulation
07 November, 2014	Peter Shepherdson	Processing multiple sources of information

Date	Speaker	Title
14 November, 2014	Tony Marley	It is the times of best; the times of worst
21 November, 2014	Psychonomic Society meeting	Seminar cancelled
28 November, 2014	Sepideh Heydari	Feedback related negativity: Reward prediction error or salience prediction error?
05 December, 2014	Azadeh HajiHosseini	Reward feedback stimuli elicit high-beta oscillations in human dorsolateral prefrontal cortex
9 January, 2015	Cancelled due to special colloquium	Watch for announcements
16 January, 2015	Cancelled due to special colloquium	Watch for announcements
23 January, 2015	Danesh Shahnazian	Prediction error at two levels of hierarchy
30 January, 2015	Kaitlyn Fallow	Scenes unseen: Conservative response bias and the subjective experience of novelty in recognition memory for paintings
06 February, 2015	Carrie Kobelsky & Ragav Kumar	Time course of evoked action representations in rotated objects
13 February , 2015	Reading break	Seminar cancelled
20 February, 2015	Psi Chi conference	Seminar cancelled
27 February, 2015	Emanuela Yeung	Precursors of theory of mind
6 March, 2015	Jim Tanaka Lab	Different minds – different brains: Inter- and intra-group variability in human cognition
13 March, 2015	Meghann Pasternak	Levels of uncertainty: Exploring decision-making in the presence of risk and ambiguity
20 March, 2015	Chelsea Kaupp	Improving walking parameters in chronic stroke: Making use of interlimb networks in the human spinal cord
27 March, 2015	Akina Umemoto	Finding neural mechanisms underlying individual differences in personality traits: The role of anterior cingulate cortex
5 May, 2015	Daniel Woltz (University of Utah)	Long-term semantic priming: Memory for meaning or prior operations?
29 May, 2015	Richard Brown (Dalhousie University)	What I have done in the 50(-1) years since I started at UVic – or – How UVic changed my life
