# Cognition and Brain Sciences Seminars

3:00 - 4:20 PM, Fridays  
Cornett A225

The Cognition and Brain Sciences (CaBS) program hosts a weekly seminar series (CaBSSem) most Friday afternoons from September through April. About two thirds of the sessions are dedicated to presentations by faculty and/or grad students in our program; the remaining third feature talks by visiting researchers.

Anyone with an interest in cognitive psychology, cognitive neuroscience, cognitive science, or generally anything cognitive, is welcome and encouraged to attend.

If you would like to receive the weekly CaBSSem announcement, which typically includes an abstract for the upcoming talk, and you are not already receiving it through the Psychat or Neuroscience mailing lists, you can [subscribe to the CaBSSem mailing list](mailto:cabssem@lists.uvic.ca) (cabssem@lists.uvic.ca).

## Current Schedule:

Date	Speaker	Affiliation	Title
11/9/15	Dan Bub	Department of Psychology, UVic	What I did on my sabbatical
18/9/15	Allison Brennan	Simon Fraser University	What's our focus? Accommodation of the psychological lens to interactive social cognition
25/9/15	Yehoshua Tsai	School of Psychological Sciences, Tel Aviv University	Dilution and task difficulty – but not perceptual load – affect selective attention
2/10/15	Corson Areshenkoff	Department of Psychology, UVic	Questionably Bayesian Psychology
9/10/15	Travis Baker	Montreal Neurological	Modulating reward valuation in
