

Psychology 201
Fall Term, 2021
A Critical Approach to Research Methods in Psychology
Time: 10:00 – 11:20 AM (M, Th)

Lecture Facilitators

Jim Tanaka, Zoom meetings by appointment. Email: jtanaka@uvic.ca.

Maddie Gregory, Zoom meetings by appointment. Email: maddiegregory@uvic.ca

Lab Coordinator

Rachel Krahn, Zoom meetings by appointment. Email: rachelkrahn@hotmail.ca

Course description

In this course, you will be introduced to the theoretical assumptions and research methods applied in psychological research. Psyc 201 – A Critical Approach to Research Methods in Psychology – is synchronous course that will be taught remotely via Zoom. In this course, you will have an opportunity to experience first-hand, the thrill, excitement (and occasional disappointment) of doing real psychological experimentation. The course will emphasize the conceptual rationale underlying quantitative and qualitative approach to psychological research. The topics covered in the course include the nature of variables, types of measurement, how to generate and test hypotheses, types of validity, and how to interpret and report results. We will discuss and critique the assumptions of standard hypothetic-deductive methods and consider alternatives. We hope that the course will provide you with the knowledge, technical skills and inspiration to conduct scientific research in psychology.

Psyc 201 is divided into two parts: a lecture component and a lab component. In lecture, we will discuss the theories, assumptions and methods used to study the mind and behavior in psychology. In lab, you will have an opportunity to design your own psychological experiment on implicit bias using the TELLab software program. You will have the chance to collect and analyze data from lab members and present your findings at our end-of-term virtual conference. The lecture portion constitutes 75% of your final grade and the lab portion constitutes 25% of your final grade.

Intellectual goals

We feel that it is our responsibility provide you with solid training in the scientific study of behaviour and mind. It is our hope that through this course, you will learn to “think like a scientist”. Our goal is for you to build your scientific reasoning skills in scientific literacy in the areas of reading and writing. For the reading portion, you will be asked to read and critique psychological papers and offer your comments on a learning platform called Perusall (<https://perusall.com>). Perusall teaches you the proper way to read and critique a scientific article. Perusall tracks the amount of time you spend reading an assigned article and awards marks for the number of visits and the quality of your comments. To strengthen your analytic writing skills, the three exams will be in essay format. The essays will be evaluated based on the quality of the writing (e.g., grammar, structure), integration of course concepts and conciseness.

Respect for diversity

We acknowledge the Songhees, Esquimalt and *WSÁNEĆ* (*wh-sah-nuch*) peoples on whose traditional territory the University of Victoria stands and whose historical relationships with the land continue to this day.

It is my intent that students' learning needs be addressed both in and out of class, and that the diversity that students bring to this class be viewed as a resource, strength and benefit. It is our intent to present materials and activities that are respectful of diversity: gender, sexuality, disability, age, socio-economic status, ethnicity, race, and culture. Please let us know ways to improve the effectiveness of the course for you personally or for other students or student groups. In addition, if any of our class meetings conflict with your religious events, please let me know so that we can make arrangements for you. Know that we value your presence as a learner and student in Psyc 201.

Course Requirments

1.) *Three in-class exams* (60%, 3 exams 20% per exam) – Three in-class tests will be given based on material presented in lecture or in the text. The exam will be in essay format. The essay questions will be taken from a list

of “think” questions for each of the three sections (“Thinking Rationality”, “Qualitative and Quantitative Approaches”, “The Psychology Experiment”). The exams will focus on new material, however, major concepts from a previous sections may also be tested. Please see schedule below for specific dates of the exams.

2.) *Weekly quizzes (20%)* –On each Thursday, a multiple-choice version of the questions will be posted on Brightspace and you will have until 11:59pm on Sunday to complete the quiz. The quiz questions will be taken from the lecture and readings. You are encouraged to consult with other students in the class for your responses. You will have two attempts to complete the quiz and we will accept your highest mark. Your final mark will be determined by the total percentage of correct responses for the entire term.

3.) *Perusall Target Readings (10%)* – For each of the three sections, students will be assigned 1-2 target articles and asked to comment on the paper via Perusall (<https://perusall.com/>). *Perusall* is an e-reader platform that allows students to annotate the assigned readings and engage in topic discussion similar to social media posting using “like” comments, hashtags, emoticons, and link. Engagement will be evaluated according to the frequency and quality of the comments and responsiveness to the comments of others.

Articles will be posted on Perusall 10 days in advance. Perusall will not allow you to make any comments or changes after the due date has passed (11:59pm on the due date). Engagement will be evaluated according to the frequency and quality of the comments and responsiveness to the comments of others. Perusall has a built-in grading system which will grade your comments based on their depth and insight. For each reading assignment, you will be evaluated on a “0 to “3” scale (3 = excellent comments, 2 = good comments, 1 = fair comments, 0 = no comments). Please refer to the two additional documents which will be posted on Brightspace (“Perusall rubric” and “Perusall scoring examples”) for further details.

4.) *Semi-structured personal interview (5%)* – The semi-structured interview assignment that is designed to assist you in practicing your interviewing skills. The interview is open-ended, and dialog based to allow for the mutual sharing of information. This style of interview is conversational and should feel like a conversation with a purpose. It is important to intuitively respond to the responses and stories, to mutually share as you feel necessary and comfortable, and to be an active listener. Active listening involves listening with your ears and heart. Late assignments will be accepted with a 10% grade deduction (e.g., 80% mark is reduced to 70%). *All late assignments must be turned in by the last day of class (Dec, 8th, 2021).*

5.) *Breakout Room Activities (5%)* – For each of the three content sections, we will have a breakout room activity where you and fellow group members will discuss a key concept, topic or question presented in lecture and the readings. The group will be responsible for generating a synopsis of the ideas discussed in the group either in written, visual (e.g., diagram, picture) or audio format. At the end of the lecture, the group will submit the synopsis on Zoom and the submission will be evaluated based on the quality of its content and integration of course concepts (90% = exceptional, 76% = solid effort, 65% = acceptable, 0% = no submission). Unless prior permission was granted, late assignments will not be accepted.

Supplemental no-cost electronic text: The lecture and assigned Perusall readings will be supplemented by selected chapters from the online text by Price, Jhangiani and Chiang entitled *Research methods in Psychology—2nd Canadian Edition*. The text can be downloaded free of charge here: <https://opentextbc.ca/researchmethods>. See course calendar for the assigned chapters corresponding to the course topic.

Summary of Course Requirements

Exams = 60% (3 exams x 20%)

Weekly Quizzes = 20 %

Perusall Readings = 10%

Personal Interview = 5%

Breakout room activity = 5%

The final letter grade in the course will be based on total percent score rounded to the third decimal point as shown: Final grades that end with a decimal point of 0.5 or above will be rounded to the next higher whole number, and grades that end with a decimal point below 0.5 will be rounded to the next lower whole number. For example, 89.5 to 89.9 is rounded up to 90% (A+), whereas 89.4 is rounded down to 89% (A).

Grading Standards (Note the change in scaling)

A+ = 90 - 100%

A = 85- 89%

A- = 80 - 84%

B+ = 77 - 79%

B = 73 - 76%

B- = 70 - 72%

C+ = 65 - 69%

C = 60 - 64%

D = 50 - 59%

F = <50%

A word about lecture notes

We will post my course notes on Brightspace by 10 PM the evening before each lecture. For updated lectures, I will post the and label them as “update” followed by the day and date.

Absentee policy

Students who miss an exam will receive a “zero” unless the student can provide documentation of an illness, health condition or family emergency signed by a medical doctor, health care professional, family member.

UNIVERSITY OF VICTORIA
Department of Psychology

Important Course Policy Information
Fall 2021

Prerequisites

Students who remain in courses for which they do not have the prerequisites do so at their own risk. Students who complete courses without prerequisites ARE NOT exempt from having to complete the prerequisite course(s) if such courses are required for the degree program.

Program Requirements

For more information see the UVic Calendar September 2021.

Registration Status

Students are responsible for verifying their registration status. Registration status may be verified using My Page, View Schedule. Course adds and drops will not be processed after the deadlines set out in the current UVic Calendar.

Commitment to Inclusivity and Diversity

The University of Victoria is committed to promoting, providing and protecting a positive and supportive and safe learning and working environment for all its members.

In the Event of Illness, Accident or Family Affliction

- ***What to do if you miss the final exam scheduled during the formal exam period***

Apply at Records Services for a "Request for Academic Concession", normally within 10 working days of the date of the exam. Records Services will forward the form to the instructor. If the concession is granted, the instructor will determine how to deal with the situation (for example, a deferred exam). Where a concession is not applied for or where such application is denied, an N grade will be entered on the student's academic record.

OR, you can download the Request for Academic Concession form here:

<http://www.uvic.ca/registrar/assets/docs/record-forms/rac.pdf>

- ***What to do if you miss an exam other than one scheduled during the formal exam period***

Do not apply at Records Services for a "Request for Academic Concession". Instead submit documentation of the illness, accident or family affliction directly to your course instructor (or designated teaching assistant).

- ***What to do if you require additional time to complete course requirements***

Apply at Records Services for a "Request for Academic Concession", normally within 10 working days of the end of the course. Records Services will forward the form to the instructor. If the concession is granted, the instructor will determine how to deal with the situation (for example, a deferred exam). Where a concession is not applied for or where such application is denied, an N grade will be entered on the student's academic record.

OR, you can download the Request for Academic Concession form here:

Policy on Academic Integrity including Plagiarism and Cheating

The Department of Psychology fully endorses and intends to enforce rigorously the Senate Policy on Academic integrity

https://www.uvic.ca/calendar/future/undergrad/#/policy/Sk_0xsM_V?bc=true&bcCurrent=08%20-%20Policy%20on%20Academic%20Integrity&bcGroup=Undergraduate%20Academic%20Regulations&bcItemType=policies. It is of utmost importance that students who do their work honestly be protected from those who do not. Because this policy is in place to ensure that students carry out and benefit from the learning activities assigned in each course, it is expected that students will cooperate in its implementation.

The offences defined by the policy can be summarized briefly as follows:

1. **Plagiarism.** You must make sure that the work you submit is your work and not someone else's. There are proper procedures for citing the works of others. The student is responsible for being aware of and using these procedures.
2. **Unauthorized Use of an Editor.** The use of an editor is prohibited unless the instructor grants explicit written authorization.
3. **Multiple Submission.** Only under exceptional circumstances may a work submitted to fulfill an academic requirement be used to satisfy another similar requirement. The student is responsible for clarifying this with the instructor(s) involved.
4. **Falsifying Materials Subject to Academic Evaluation.** This includes falsification of data, use of commercially prepared essays, using information from the Internet without proper citation, citing sources from which material is not actually obtained, etc.
5. **Cheating on Assignments, Tests, and Examinations.** You may not copy the work of others in or out of class; you may not give your work to others for the purpose of copying; you may not use unauthorized material or equipment during examinations or tests; and you may not impersonate or allow yourself to be impersonated by another at an examination. The Department of Psychology has a policy of not making old examinations available for study purposes. Therefore, use of old exams without the express written permission of the instructor constitutes cheating by the user, and abetting of cheating by the person who provided the exam.
6. **Aiding Others to Cheat.** It is a violation to help others or attempt to help others to engage in any of the conduct described above.

Instructors are expected to make every effort to prevent cheating and plagiarism. This may include the assignment of seating for examinations, asking students to move during examinations, requests to see student identification cards, and other measures as appropriate. Instructors also have available to them a variety of tools and procedures to check for Internet and electronic media-based cheating. In instances of suspected or actual plagiarism or cheating, instructors, following prescribed procedures, are authorized to take steps consistent with the degree of the offence. These measures will range from a zero on the test or assignment or a failing grade for the course, probation within a program to temporary or even permanent suspension from the University.

Rights of Appeal are described in the Policy on Academic Integrity in the University calendar September 2021.

The definitive source for information on Academic Integrity is the University Calendar

Other useful resources on Plagiarism and Cheating include:

1. The Ombudsperson's office: <https://uvicombudsperson.ca/tips/plagiarism/>
The [Office of the Ombudsperson](#) is an independent and impartial resource to assist with the fair resolution of student issues. A confidential consultation can help you understand your rights and responsibilities. The Ombudsperson can also clarify information, help navigate procedures, assist with problem-solving, facilitate communication, provide feedback on an appeal, investigate and make recommendations. Phone: 250-721-8357; Email: ombuddy@uvic.ca; Web: uvicombudsperson.ca.
2. UVic Library Resources: <http://www.uvic.ca/library/research/citation/plagiarism/>

BE WELL

A note to remind you to take care of yourself. Do your best to maintain a healthy lifestyle this semester by eating well, exercising, getting enough sleep and taking some time to relax. This will help you achieve your goals and cope with stress. All of us benefit from support during times of struggle. You are not alone.

Social Life, Friends, & Community at UVic:

Having a social network is an extremely important foundation for positive mental health. There are lots of benefits to joining clubs, course unions, intramurals and teams on campus.

<https://www.uvic.ca/mentalhealth/undergraduate/connecting/index.php>

Counselling Services:

Counselling Services can help you make the most of your university experience. They offer free professional, confidential, inclusive support to currently registered UVic students. www.uvic.ca/services/counselling/

Health Services:

University Health Services (UHS) provides a full service primary health clinic for students, and coordinates healthy student and campus initiatives.

www.uvic.ca/services/health/

Centre for Accessible Learning:

The CAL staff are available by appointment to assess specific needs, provide referrals and arrange appropriate accommodations www.uvic.ca/services/cal/. The sooner you let us know your needs, the quicker we can assist you in achieving your learning goals in this course.

Elders' Voices:

The Office of Indigenous Academic and Community Engagement (IACE) has the privilege of assembling a group of Elders from local communities to guide students, staff, faculty and administration in Indigenous ways of knowing and being.

www.uvic.ca/services/indigenous/students/programming/elders/

Mental Health Supports and Services:

Mental health supports and services are available to students from all areas of the UVic community: www.uvic.ca/mentalhealth/undergraduate/

Sexualized Violence Prevention and Response at UVic

UVic takes sexualized violence seriously, and has raised the bar for what is considered acceptable behaviour. We encourage students to learn more about how the university defines sexualized violence and its overall approach by visiting www.uvic.ca/svp. If you or someone you know has been impacted by sexualized violence and needs information, advice, and/or support please contact the sexualized violence resource office in Equity and Human Rights (EQHR). Whether or not you have been directly impacted, if you want to take part in the important prevention work taking place on campus, you can also reach out:

Where: Sexualized violence resource office in EQHR, Sedgewick C119

Phone: 250.721.8021

Email: svpcoordinator@uvic.ca

Web: www.uvic.ca/svp
