

Competition Guidelines

Why have a competition?

As part of our commitment to energy reduction, UVic's Residence Green Team is running an Energy Conservation Pledge Competition for Residence Students. The goal of the competition is to reduce UVic's energy consumption and assist residence students in building a community.

How do I participate?

You and your teammates must each choose up to 3 behaviors from our online survey (sent to team leaders and posted on our [Sustainability Campaigns page](#)) that you will pledge to do during the competition. Points will be awarded based on how frequently each member of your team completes their behaviors.

Points are tracked weekly and tallied at the end of the competition. The team with the highest combined points wins! At the end of the competition, we will be calculating the total energy reduction per floor.

When?

- **Participant Pledge:** The pledge survey opens Nov. 23 and closes Nov. 27. Remember, everyone on your team must take the survey in order to compete!
- **Competition:** Runs from Nov. 30 - Dec. 11. All team members must take the weekly surveys tracking the frequency of their actions during the competition to earn points for their team.

Leaving campus before the competition is over? Don't worry, we've designed the survey so you can still participate up until you leave.

All survey links will be sent to team leaders via email and posted at uvic.ca/sustainability/involved/campaigns/index.php

Prizes?

The winning team will receive ONECard top-ups up to \$30 per person!

* Note that no team member will receive more than \$30 and the combined total amount awarded to the team will not exceed \$500.
