### 1.3 - Key Accomplishments

Please describe your projects key accomplishments.

. We had about 7 pre made questions to prompt people if the discussion was not flowing. The roundtables went on until 8:10. At 8:10 an event coordinator facilitated someone from each club stand up and to introduce the club, it kind of went popcorn style. After club introductions we had a poet present a poem that was related to environmentalism to end the evening. The event coordinators thanked people for coming and closed off the evening with the raffle draw. Just after the raffle draw we quickly distributed feedback forms. Lots of people helped clean up after and put chairs and tables back!

70 people showed up (+/- 5 for people coming in and out)

### 1.4 - Student Learning:

Please describe how the expected student learning opportunities were realized.

This event was created and hosted entirely by UVic undergraduate students.

### 1.5 - Goal Acquisition:

Was the project goal achieved? In answering please describe the how the project effected the relevant stakeholders and where the project is currently.

The event meet its goal of enhancing student connectivity on campus with regard to environmental

issues. The groups that attended are as follows:

1. Community Cabbage
2. Students for the Salish Sea
3. UVSP
4. Ancient Forest Alliance
5. Ecological restoration club
6. Campus Community Garden
7. Divest UVic
8. Surfrider
9. UVic Meal exchange

## 1.6 - Long Term Consequences:

How will this project be continued and its accomplishments carried forward?

It is the organizers hope that the Round Table will continue as an annual event. The clubs involved were very happy to be involved in the event and the attendance level was more than expected.

## 1.7 - Lesson's learned:

What advice would you give others attempting similar projects through Sustainability Fund?

- he clubs arrived at 6pm and we didn't have all the tables set up and ready - caused for a bit of confusion and hecticness
- The email list and writing names down on raffle tickets at the table upon entering took a little too long to write (buy the right raffle tickets...)
- The line up for food was long and took a little too much time to get through
- Having people stand up and introduce the clubs after diner was a little slow, probably try and introduce clubs before the discussion next time
- Possibly arrange the tables how we want them for the dinner portion at the very beginning and then have clubs just set up on the existing clusters of tables and when they take down we already have tables ready for dinner/roundtable
  - Somehow organize tables so that it isn't so hectic changing from club interaction to dinner and roundtables
- We didn't quite have enough food :(
  - Possibly outsource the food preparation to another group, a little much for us to all do ourselves
- Maybe host the event in the MJ room next time? More space?

### 1.8 - Timeline:
