

Things are increasingly quiet as the holiday approach. This week, we only have one piece of news and one event.

**NEWS:**

[BC Transit](#) released a few changes to their service, which will come into effect December 29<sup>th</sup> and hopefully improve service to UVic. It looks like there will be several more 14s running between downtown and UVic after the 29th with changes to the 11 and the 33 routes. UVic related routes 11, 12, 14, 15 and 39 have some additional trips added to address capacity and reliability issues.

**AT UVIC:**

**SEMINAR ON ECONOMIC IMPACTS OF CLIMATE CHANGE AND ADAPTATION IN THE B.C. AGRICULTURE SECTOR**

**Wednesday December 17th, 3:30-4:30pm**

UVic, PICS Building, University House 1 room 002

Kayleigh Donahue will present results from her PICS internship and co-op term at the B.C Ministry of Agriculture. Her research focused on the economic impacts of climate change and adaptation and included a literature review and scenario analysis. Ian McLachlan will provide context about the B.C. Ministry of Agriculture Climate Change Adaptation Program. For more details see [the PICS website](#)

This is the last email before the break. The Office of Campus Planning and Sustainability wishes you all happy holidays!
