

Erin Campbell, Art History and Visual Studies

As Professor and Chair of the Department of Art History & Visual Studies, former Vice-President of the FA, and current Senate member-at-large and Faculty Representative on the Board of Governors, I am a passionate advocate for collegial governance. If re-elected to the Senate, I would continue to contribute my extensive experience with collegial governance in support of faculty members to advance UVic's academic mission and values. Faculty face increasing workloads with declining resources. In this challenging moment, it is essential that we elect experienced representation for the Senate.
