

I am an Associate Teaching Professor in Physics and Astronomy; I joined the University in 2006. I have been a member of Senate since I was first elected in 2017, and am currently on Senate Committee on Appeals, Senate Committee on Registration Reregistration and Transfer Appeals, and Senate Committee on Agenda and Governance. I have previously served on the Senate Committee on Learning and Teaching and the Senate Committee on Continuing Studies. My particular interests in serving on Senate focus on policies related to undergraduate academic regulations and curriculum.
