

Olivia Wein
Biographical Sketch

As a passionate and ambitious student at the University of Victoria, I believe I am the ideal candidate for a position in the Senate. As the founder of the Uvic Fashion Society, I have developed valuable communication, organization, and advocacy skills that can be applied to a position in the Senate. My recent acceptance into the business school at UVic will equip me with the necessary knowledge and skills to understand complex financial policies and provide insights into how these policies can impact student life and academic programs. With my background in finance, I will bring a fresh perspective to the Senate.

My experience as a student-athlete and academic scholarship recipient at Western University has provided me with a well-rounded and diverse perspective on student life. I understand the importance of balancing academic pursuits with extracurricular activities and am committed to ensuring that all students at UVic have access to a fulfilling university experience. My current work as a business co-op at Big Brothers and Big Sisters of Victoria has allowed me to hone my collaborative problem-solving skills, which will be essential in working with other members of the Senate to make informed decisions that benefit the university community as a whole.

In conclusion, my experience as the founder of the UVic Fashion Society, my acceptance into the business school, my diverse background, and my work as a business co-op make me the ideal candidate for a position in the Senate. I am excited about the opportunity to represent my fellow students and contribute to the betterment of the University of Victoria community.
