4. REMARKS FROM THE CHAIR

a. President's Report

Prof. Cassels started his remarks congratulating Dr. Susan Lewis on her recent appointment to the role of Associate Vice-President Academic Planning. He also announced the new Vice-President External Relations, Chris Horbachewski.

Prof. Cassels thanked both Dr. Rosaline Canessa and Dr. Eva Baboula for their service as Acting Deans in the Faculty of Social Science and Fine Arts. Both terms on Senate are ending, and new appointments will begin in the new year while searches for new Deans continue. Dr. Robin Hicks was thanked for his role as

Acting Dean of the Faculty of Science. Dr. Hans-Peter Loock begins his role as Dean of Science in January. Dr. Hicks's role in Senate will continue as he remains an elected member.

Prof. Cassels thanked everyone for their participation at the 2019 Joint Board Senate Retreat on Community-University Engagement. He mentioned that a report on the input provided by members would come to the Senate shortly. He also reported that the fall convocation awarded 1459 degrees, diplomas and certificates within four ceremonies with two very impressive honorary degree recipients.

In regards to the recent Board of Governors meeting and the climate change discussion, Prof. Cassels acknowledged that climate change and responsible investment are vital issues for our campus. No one doubts that this is a critical issue and that socially and environmentally responsible investment is important. He stated that the aim is to find the best way to tackle the issue in the best interest of the university. As a result, it is essential to understand the process involved and the different tools used to make a positive impact. The Board has attended two educational sessions and has asked the administration for working ideas and additional information in which to make the most informed decision. He stressed that divestment is still on the table as an option among many considerations. Prof. Cassels highlighted two sources of information on the websites of the Vice-President Finance and the Faculty Association.

In local news, the WestShore business case for a post-secondary educational hub proposal led by Royal Roads University is in its final stages. Prof. Cassels reported that he continues to work with both Royal Roads and Camosun College and the programs which could benefit from this development.

Giving Tuesdays was a success, and Prof. Cassels thanked members who participated. There were 550 participating in the celebration and \$100,000 raised, tripling the amount from last year.

In terms of awards, Prof Cassels extended congratulations to Dr. Nik Dechev on his \$1 million TD Challenge award based on his proposal to upscale his UVic Hand Project. The Victoria Hand Project uses 3D printers to create cost-effective hand/arm prosthetics in developing nations. Coast Capital also awarded UVic a \$1 million grant to support the continuation and amplification of the Coast Capital Innovation Centre. A team of UVic Engineering students won the top prize at the national People in Cyber Conference this fall. Their focus was on phishing prevention. Finally, the Vikes women's field hockey and men's rugby team won their national championship competitions this fall.

5. CORRESPONDENCE

a. Campus Planning Committee

i. Semi-annual report to Senate on Campus Development

Prof. Cassels introduced the report. He mentioned that co-chairs Dr. Valarie Kuehne and Ms. Gayle Gorrill, Vice-President Finance and Operations, as well as Mike Wilson, Director of Campus Planning and Sustainability, were in attendance to answer any questions.

A member asked for an estimation of the cost for the Housing and Development Project underway. Mr. Wilson replied that this was the largest project ever established on the campus at approximately \$201 million. He continued to explain that residence costs for students will be established as the project was

closer to completion. Prof. Cassels explained the financing structure of the project, which was approved by the Board of Governors.

6. PROPOSALS AND REPORTS FROM SENATE COMMITTEES

a. Senate Committee on Academic Standards

i. University of Victoria Grading Patterns Reporting Portal

Dr. Neil Burford introduced the report and mentioned that the Senate Committee on Academic Standards felt that it beneficial for wider attention paid to this report and that the committee would endeavour to do this in the coming year.

In response to a question, Mr. Tony Eder, Executive Director, Academic Resource Planning stated that the data in the report was created within a 5-year time frame but that the portal had a 12-year time-frame.

ii. Proposed Revision to Grading within the Post-Degree Professional Elementary program

Dr. Burford introduced the proposal and commented on the committee's thorough deliberation.

A Senate member reminded others that it was okay to vote against the proposal. He continued to remark on his objections to the proposal as the holistic grading method suggested will not be accompanied by the lengthy comments which would typically support the assessment. Dr. Ralf St. Clair appreciated these valid concerns. He outlined the K-12 competency-based system as well as the particular post-degree program requirements to explain the balance to both models of assessment and the need for precise grading.

In the gallery, Dr. Deborah Begoray, Chair of Curriculum and Instruction, reminded members that this assessment technique has become the trend across Canada and has been thoroughly researched.

Members inquired on the effect on awards and academic standing. Dr. Begoray replied that consultation had occurred with Graduate Admissions and Records and the Faculty of Graduate Studies for graduate grade point average calculation and award qualification. The department has also consulted with Undergraduate Records to establish a method to deal with matters of academic standing.
