

*I began working at UVic Law in 1996 and have held the positions of Admissions Officer, Career Development Officer, Administrative Officer and currently Manager, Academic Administration and Student Services. I am responsible for managing the student services office, which includes overseeing student advising, registration, timetabling, exam scheduling and academic accommodation. I work closely with many staff, as well as faculty members and students, and would bring a perspective that reflects what I have learned from working with these diverse groups.*

*My 26 years of experience with the Faculty of Law have given me an in-depth understanding of the law school, the administrative and operational issues and the impact decisions have on staff and students. I have had the opportunity to work closely with many law deans during my tenure and have insight into the critical leadership role they hold within the school.*

Thank you for your consideration.

Yvonne
