Following the March Board meetings, the Board received correspondence from a group of students. Ms. Van Ruyven noted the university’s commitment to attracting, supporting and developing a diverse group of students. She said the Board will continue to engage management in discussions regarding international tuition fees and support for international students at both the graduate and undergraduate level. 10. Audit Committee (Ms. Cathy McIntyre)

a. 2018/19 Financial Statements

Ms. McIntyre reported that the Audit Committee received a presentation on the financial statements of the University for the year ended March 31, 2019. She provided an overview of the statements. With respect to the consolidated excess of revenues over expenditures, Ms. McIntyre commented on one time events that contributed to this excess, including reduction of benefits expense as result of no longer including the LTD Trust from the financial statements, surplus within ancillary areas to ensure there is funding to address future capital requirements, and transactions that do not increase the resources available to the university and operating investments in capital. Ms. McIntyre further explained that each year the University is required to invest in capital expenditures. While these expenditures are made each year, for accounting purposes the expenditures are amortized over the future life of the asset. As a result, there appears to be surplus in the year as capital expenditures are not included. Previously, the university has received approval to restrict a portion of its provincial grant for capital purposes, but approval was not granted this year.
Ms. McIntyre said the auditors had provided their report. They will be providing a qualified audit opinion on a fair presentation basis consistent with the last three years, as the presentation requirements set out by the Province differ from Public Sector Accounting Standards with respect to the treatment of funding received for capital investments.

Ms. McIntyre said that, at the June meeting, the Board will receive a report on the financial statements on a fund accounting basis. This is the accounting basis on which the University budgets and manages. At that time, there will be a more fulsome reporting on the results including comparison to budget.

The committee also heard about the meetings that had occurred between management and students representing Divest UVic.

Ms. Van Ruyven said the committee had a preliminary discussion and there was agreement that this is a very important matter that is directly aligned with the commitment of the university to promote sustainable futures.
