Financial Highlights of the Year

The University's strategic plan, *A Vision for the Future – Building on Strength*, outlines goals in four strategic areas: People, Quality, Community and Resources and states a commitment to public and internal accountability. The following financial review, audited financial statements and detailed fund accounting schedules for the year ended March 31, 2012 are prepared in the context of this commitment. The separation of internally and externally restricted funds from our unrestricted funding honors the University's commitment to funding sponsors and recipients, that monies are spent for the purposes intended.

Highlights from the past year include:

The University's total revenues, on a fund accounting basis, decreased by $41.9 million (7.8%) to $496.5 million while total expenditures decreased by $21.7 million (4.2%) to $499.9 million (Page 34).

General operating revenues increased $3.9 million of which $4.0 million was due to increased tuition revenue resulting from the 2% tuition rate increase and enrolment growth of 1.8%. The University’s general operating expenditures increased $5.3 million (1.8%), including increases of $3.9 million to the Faculties and other academic units and $1.3 million for additional student awards and services, facilities, library and other infrastructure support (Page 42). In past years, government funding for student growth funded university inflationary cost pressures. As this growth has now reached completion, a 1.5% budget reduction was required in 2011/12 to balance the general operating budget.

Faculty had another very successful year in attracting research grants and other support. Total Sponsored Research revenues totaled $96.8 million on a fund accounting basis, maintaining the high level of research activity experienced in recent years. In addition, $6.3 million was received from the Federal Indirect Research Costs Program. During the year, construction started on the $62.9 million ARIEL project led by UVic to build a lab and underground beam tunnel for use in the production of medical isotopes at TRIUMF, Canada’s national observatory for particle and nuclear physics.

During the year the Legacy Gallery was renovated and re-opened as UVic's primary art gallery, construction commenced on the Bookstore expansion and planning continued on the renewal of the university’s athletic facilities.
Presentation of Financial Information

The University’s audited financial statements, (Pages 11 to 29) are prepared in accordance with Canadian generally accepted accounting principles and the reporting standards for not-for-profit organizations set by the Canadian Institute of Chartered Accountants. These audited statements present the financial results in a format similar to that of a business, with buildings, equipment and library holdings depreciated over their useful lives. A characteristic of not-for-profit organization deferral accounting is that grants and other revenues with restrictions set by external providers of funds are matched each year with corresponding costs consumed in that year’s operations. This results in large deferred contributions and deferred capital contributions appearing as liabilities on the balance sheet awaiting amortization as revenues in future years to match corresponding expenses, including depreciation of capital assets. The University’s year-end equity (i.e. Net Assets) has four components: amounts invested in capital assets, endowed, internally restricted by governing boards and unrestricted. The activity during the year in each component is shown on Statement 2 (Page 12).

Next year, the university will be transitioning on a retroactive basis to Public Sector Accounting Standards. The university is currently evaluating the impact of adopting these standards on its financial statements.

Useful and more detailed financial information is set out in the Notes to the audited financial statements on pages 15 to 28.

The University provides regular interim financial reporting to the Board of Governors. Quarterly statements are prepared with a summary commentary of any significant issues, trends or variances from budget in each of the fund groups.

The Balance Sheet on Page 11 shows Net Assets of $616 million. Internally restricted net assets are primarily the appropriations made by the Board of Governors from general operations and the anciliaries less the internal loans for capital additions set out on Page 33. These appropriations will be used for the replacement of computers and other equipment and for non-recurring expenditures in the future reflecting the unspent budgets by departments and the general University. By permitting departments to carry-over unspent budget, they have the ability to make fiscal plans across multiple years in support of departmental strategic initiatives and for replacement of departmental assets such as equipment. University funds are generally used for strategic initiatives including investment in capital projects.

To enhance accountability, budgetary control and stewardship of resources, the University maintains separate funds of assets, liabilities, revenues and expenditures for its many activities. Fund accounting is used by the University for its operating budget allocations and to ensure that restricted grants, donations and other contributions are spent only for the purposes intended. These funds are grouped as General Operating, Ancillary Enterprises, Specific Purposes, Sponsored Research, Capital and Endowment funds with definitions of each in Note 2(c) on page 16. Unaudited management schedules detailing these funds are shown on Pages 32 to 46 for the years ended March 31, 2012 and 2011. Most revenue and expense lines are the same in both the audited Statements and unaudited Schedules. A summary reconciliation of the two presentations is shown on Page 30 with a brief explanation of the differences on Page 31. Both the audited Statements and the unaudited management Schedules are useful in presenting the operating results and financial position of the University of Victoria. Most of the charts, analysis and commentary in the remainder of this financial review are based on the unaudited management schedules.
University of Victoria – All Funds

Total Revenue $486 million

- Capital $5
- General Operating $320
- Sponsored Research $97
- Ancillary Enterprises $51
- Specific Purposes $23

Source: Page 34

The General Operating Fund represents 65% of the University’s activities.

Total Expenditures $500 million

- Salaries $254
- Employee benefits $46
- Supplies and expenses $70
- Properties and equipment $44
- Student awards $32
- Other $54

Source Page 34

General Operating Revenues $320 million

- Credit Tuition $98
- B.C. Government $177
- Interest $5
- Other $24
- Non-credit & other tuition $16

Source: Page 37

General Operating Expenditures $365 million

- Academic $186
- Librarian $17
- Student Awards & Services $27
- Plant Maintenance $27
- General Admin $38

Source: Page 42
Over the past year in the General Operating Fund (page 37):

- Revenues for operations included:
  - the $6.3 million federal funding for the indirect costs of research,
  - $4.0 million increase in credit course tuition revenue resulting from the 2.0% increase in fees (maximum allowed increase limited to inflation) and increased enrolments,
  - investment income increased by $1.3 million even though short term interest rates stayed low during the year. The portfolio is professionally managed in three pools providing daily liquidity along with enhanced returns from investments with a longer duration.

![Graph showing Undergraduate Headcount, Graduate Headcount, and FTEs over time from 04/05 to 11/12.](image)

*Headcounts are as of November 1st of each academic year. Annualized Audited FTEs are as of March 1st of each academic year and follow Research Universities' Council of BC guidelines.*

Schedules F to J on Pages 42 to 46 compare faculty expenditures between 2010/11 and 2011/12. The level of expenditures can vary from year to year for reasons such as the purchase of a significant item of equipment using appropriated funds from prior years.

Since General Operating Fund revenues are primarily unrestricted as to their spending, the University employs a detailed budgeting system to direct and control expenditures. Salaries and benefits comprise 79% of operating expenditures. Each continuing faculty and support staff position requires senior executive approval prior to being established and all staffing actions require the approval of the Dean/Director and a Vice-President. The annual budget allocation process is very thorough, requiring each department to analyze its opportunities for expanded revenues as well as plan and justify its levels of expenditures. Each year certain new initiatives are approved for recurring annual funding. As well, some unavoidable cost increases, such as utilities and insurance premiums, are reflected in the operating budget. During the year, a 1.5% budget reduction was implemented across all departments in order to address inflationary cost pressures.

For over 30 years, departments have been requested to save (i.e. to appropriate) from their annual operating budgets sufficient funds to replace computing and other equipment. Schedule 2 on Page 33 summarizes these replacement appropriations. The University also has a carry-over policy whereby departments who do not spend all of their base General Operating Fund allocation in a year have it appropriated at the Faculty level for spending in future years. These two policies permit departments to plan for new projects, restructuring, and equipment needs over a
longer timeframe. Should a department incur a deficit in a fiscal year, that deficit becomes a first charge on its operating budget for the following year.

The Board of Governors approves an annual operating budget which cannot indicate expenses greater than revenue. The University's accounting system provides account holders of all University funds with current, on-line web access to their revenues, expenditures, and most commitments. Using the on-line financial system, those responsible for single funds, departments and overall University operations have the means to identify situations and take timely corrective actions where expenditures are otherwise likely to exceed revenues.

Ancillary Enterprises Fund

The revenues, expenditures and appropriations for facilities and equipment renewal of the Bookstore, Food Services, Residences, Parking Services, Child Care and Computer Store are set out on Page 38. Since the University's provincial operating grant and tuition fees should not subsidize such operations, each ancillary enterprise must budget to break even, including a provision for the periodic renovation and replacement of its facilities.

Off-campus Business Enterprises include the operations of the Broad Street commercial/residential rental properties owned by the University and the property rental and hotel operations owned by Heritage Realty Properties Ltd., both accounted for using the equity method of accounting. The hotel operations and rental properties, received as part of the Michael C. Williams' estate, provide a large and sustainable cash flow to the University.

Off-campus Business Enterprises also include the Vancouver Island Technology Park Trust, accounted for using the equity method of accounting, and the operations of the University of Victoria Properties Investments Inc. The University of Victoria Properties Investments Inc. acts as trustee for the Trust and also manages the Marine Technology Centre owned by the University. The Vancouver Island Technology Park provides a range of commercial space for external high-tech companies and some UVic research and teaching activities. The Trust is intended to be self funding with distributions of excess cash flow provided to the university. The change in equity in the Trust is included in the Ancillary Enterprises fund.
Sponsored Research

Sponsored research funding totaled $96.8 million in 2011/12 which was $0.4 million lower than last year's total of $97.2 million. During the year, UVic researchers received another $19 million from the Canada Foundation for Innovation (CFI) ($21 million in 2010/11) and $14 million from the B.C. Knowledge Development Fund (BCKDF) ($6 million in 2010/11). These grants, together with matching support from non-government sources (usually 20%), provide funding for major research equipment and the development of research facilities.

Of the $96.8 million total this year, $31 million (32%) was received in the form of competitively adjudicated grants from the federal tri-Council Natural Sciences and Engineering Research Council (NSERC), Social Sciences and Humanities Research Council (SSHRC) and Canadian Institute of Health Research (CIHR). UVic ranks third among Canadian comprehensive research intensive universities in total research funding, fifth in NSERC/CIHR grants and second in SSHRC grants.

Over the past ten years, sponsored research revenue has grown a remarkable 206% from $46.9 million in 2002/03 to $96.8 million in 2011/12.
Specific Purposes Fund

In addition to the grants and contracts received for sponsored research, the University receives grants, undertakes contracts and distributes earnings from its endowment funds for teaching, lecture series, student awards and other academic purposes as detailed on Pages 39 and 46.

Endowment Funds

Most endowment funds benefiting the University and its students are held by the University of Victoria Foundation. The Foundation’s investments experienced a third straight year of positive returns with investment income of $9.1 million representing a 3.1% return for the year ended March 31. With the receipt of $8.7 million of endowment contributions less disbursements of $14.3 million, the total market value of the UVic Foundation endowment fund increased from $298.1 million to $301.6 million, comprised of $293.4 million of principal and $8.2 million of expendable funds.

The Foundation’s investments are managed by professional investment counsel with separate managers for Canadian equity and Canadian fixed income mandates. Global equity mandates split evenly between two managers, a real estate manager and an infrastructure manager. The Foundation’s investment policy provides for a target asset mix of 25% fixed income, 25% Canadian equities, 30% global equities, 10% real estate and 10% infrastructure. External investment consultants assist the Foundation’s Board in monitoring performance and considering an appropriate asset mix.
The Foundation’s endowment management policy follows a “total-return” approach with awards based on 4.0% of the December 31 inflation adjusted balance of the funds principal with an additional 0.5% available for funds in excess of 108% of inflation adjusted principal. In most years, an amount is capitalized to the principal of each endowment to protect against the eroding effects of inflation and during the year $8.3 million was added to principal.

In Summary

The University of Victoria has celebrated over 100 years of post-secondary education, beginning in 1903 as Victoria College and next year will be celebrating its 50th anniversary as a degree-granting university in its present location. In this relatively short time, the University has become one of Canada’s finest comprehensive universities. It is increasingly recognized for outstanding and expanding scholarly achievement in teaching, research and creative work and valuable community service, with a structure to ensure sound fiscal stewardship and broadening sources of funding.

As the University concludes another year, over 3,100 graduates will join the more than 104,000 alumni now living throughout the world. The University continues to take steps to implement the vision in its strategic plan, A Vision for the Future-Building on Strength. In the upcoming year, the University will complete the development of its next strategic plan which will identify goals and aspirations for the years ahead with clear objectives and strategies for accountable achievement.

Gayle Gorriil
Vice-President Finance and Operations

Murray Griffith
Executive Director, Financial Services
STATEMENT OF ADMINISTRATIVE RESPONSIBILITY FOR FINANCIAL STATEMENTS

The University is responsible for the preparation of financial statements and has prepared them in accordance with Canadian generally accepted accounting principles prescribed for not-for-profit organizations by the Canadian Institute of Chartered Accountants. The consolidated financial statements present fairly the financial position of the University as at March 31, 2012, and the results of its operations and cash flows and the changes in its net assets for the year then ended.

In fulfilling its responsibilities and recognizing the limits inherent in all systems, the University's Administration has developed and maintains a system of internal controls designed to provide reasonable assurance that University assets are safeguarded from loss and that the accounting records are a reliable basis for preparation of financial statements. The system of internal controls is monitored by the University's internal auditor.

The Board of Governors carries out its responsibility for review of the financial statements principally through its Audit Committee. The members of the Audit Committee are not officers or employees of the University. The Audit Committee meets with the Administration and with the internal and external auditors to discuss the results of audit examinations and financial reporting matters. The auditors have full access to the Audit Committee, with and without the presence of the Administration.

The consolidated financial statements have been examined by KPMG LLP, Chartered Accountants, the external auditors appointed by the University's Board of Governors. The Auditors' report outlines the scope of their examination and expresses their opinion on the fair presentation of the consolidated financial statements of the University for the year ended March 31, 2012.

Dr. David H. Turpin
President and Vice-Chancellor

Ms. Gayle Gorrill
Vice-President, Finance & Operations
INDEPENDENT AUDITORS’ REPORT

To the Board of Governors of the University of Victoria and
To the Minister of Advanced Education, Province of British Columbia

We have audited the accompanying consolidated financial statements of the University of Victoria, which comprise the consolidated statement of financial position as at March 31, 2012, the consolidated statements of changes in net assets, revenue and expense and changes in unrestricted net assets and cash flows for the year then ended, and notes, comprising a summary of significant accounting policies and other explanatory information.

Management’s Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with Canadian generally accepted accounting principles, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditors’ Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we comply with ethical requirements and plan and perform an audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on our judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the entity’s preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity’s internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements present fairly, in all material respects, the consolidated financial position of the University of Victoria as at March 31, 2012, and its consolidated results of operations and its consolidated cash flows for the year then ended in accordance with Canadian generally accepted accounting principles.

NOTE 1  AUTHORITY AND PURPOSE

The University of Victoria operates under the authority of the University Act of British Columbia. It is a comprehensive research university offering a wide range of undergraduate, graduate and continuing studies programs. The University is governed by a 15 member Board of Governors, eight of whom are appointed by the government of British Columbia including two on the recommendation of the Alumni Association. The academic governance of the University is vested in the Senate. The University is a registered charity and is therefore exempt from income taxes under Section 149 of the Income Tax Act.

NOTE 2  SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND REPORTING PRACTICES

(a) General
These financial statements are prepared in accordance with Canadian generally accepted accounting principles for as recommended by the Canadian Institute of Chartered Accountants (CICA). The University has adopted the deferral method of accounting for contributions.

(b) Consolidated Operations
The University conducts certain activities through related entities. These financial statements consolidate the accounts of four wholly owned subsidiaries of the University:
- UVic Industry Partnerships (formerly University of Victoria Innovation and Development Corporation) which facilitates research partnerships between the private sector and the University.
- University of Victoria Properties Investments Inc. which manages the University’s real estate holdings including the Vancouver Island Technology Park Trust.
- Ocean Networks Canada Society which manages the University’s VENUS and NEPTUNE ocean observatories.
- Pacific Climate Impacts Consortium which stimulates collaboration to produce climate information for education, policy and decision making.

The financial statements consolidate the accounts of the University of Victoria Long Term Disability Trust which administers an employee benefit plan on behalf of the University’s faculty and administrative professional staff.

The financial statements consolidate the accounts of related not-for-profit organizations whose activities benefit the University:
- University of Victoria Foundation, the Foundation for the University of Victoria, and the U.S. Foundation for the University of Victoria which encourage financial support of the University and administer the University’s endowment funds.

The operations of University of Victoria Properties Investments Inc. are reported in Schedule A as Ancillary Enterprises, Ocean Networks Canada Society and the Pacific Climate Impacts Consortium are reported as Sponsored Research, while the operations of the other five entities are reported as Specific Purposes.

The financial statements include the accounts of the University’s two profit-oriented subsidiaries using the equity method of accounting:
- Heritage Realty Properties Ltd. which manages the property rental and downtown hotel and brew-pub operation donated by the late Michael C. Williams.
- Vancouver Island Technology Park Trust which provides leased space to high-technology companies on Vancouver Island.

The financial statements include the accounts of the following joint ventures using the equity method of accounting:
- Tri-Universities Meson Facility (TRIUMF) which operates a research facility for sub-atomic physics located at the University of British Columbia. The financial statements include the University’s 9.09% interest.
Western Canadian Universities Marine Sciences Society (WCUMSS) which operates a marine research facility at Bamfield on the west coast of Vancouver Island. The financial statements include the University’s 20% interest.

All entities have a fiscal year end of March 31 with the exception of Heritage Realty Properties Ltd. which has a December 31 year end.

(c) Deferral Method and Fund Accounting
The University follows the deferral method of accounting for contributions, and manages its operating results using fund accounting. The fund accounting procedures are employed primarily to recognize external restrictions placed on the use of resources by donors and granting agencies and to recognize appropriations and other internal restrictions placed by governing boards. Separate accounts are maintained for each fund, and for financial reporting purposes, funds with similar characteristics are grouped together as described below.

The General Operating Fund reports revenue and expense related to the general operations of the University.

The Ancillary Enterprises Fund reports revenue and expense related to service operations that are expected to function on a self-supporting basis. These operations comprise the bookstore, food services, student residences, Dunsmuir Lodge conference and training centre, parking services, child care services, computer store, donated property rental, hotel and brew-pub operations and the Vancouver Island Technology Park.

The Specific Purposes Fund accounts for revenue (including endowment income) and expense relating to contract services and special projects.

The Sponsored Research Fund accounts for monies designated for support of research.

The Capital Fund accounts for monies designated for the acquisition of capital assets and major renovations. Where monies designated for capital use are received as part of the resources for general operations, ancillary enterprises, specific purposes and sponsored research activities - generally for equipment, furnishings, computer equipment and library holdings - the revenue and expense related to those assets are accounted for in those respective funds.

The Endowment assets, held as invested principal, comprise the accumulation of endowment contributions and the portion of investment income that is required by the donors and the Board to be added to the fund to offset the eroding effect of inflation.

(d) Revenue Recognition
Operating government grants that are not restricted as to their use are recognized as revenue when receivable. Such grants, if received for a future period, are deferred and reported as Deferred Contributions until that future period. Other unrestricted revenue, including tuition fees and sales of services and products are reported as revenue at the time the services are provided or the products are delivered.

Externally restricted contributions - grants and donations - are reported as revenue depending on the nature of restrictions imposed by the contributors on the use of the monies:
- Non-capital contributions for specific purposes or research activity are recognized as revenue in the year in which the related expense is incurred.
- Contributions of or for the purchase of capital assets having a limited life are recognized as revenue over the same accounting periods as those in which the depreciation expense related to the capital asset purchased is recorded, and on the same basis as the depreciation expense. Where the capital asset involved is land, works of art or special collections of the Library to be held for use by the University, the contribution is reported as a direct increase in net assets invested in capital assets rather than as revenue.
- Endowment contributions are reported as direct increases to net assets held as endowment principal.

Unrestricted investment income is recognized as revenue when it is earned. Investment income earned on endowment principal is
recognized as a direct increase to net assets held as endowment principal to the extent it is stipulated or agreed by donors to be added to the principal amounts, essentially to protect the economic value of the endowments. The remaining investment income from the endowment principal is recognized as revenue of the Specific Purposes Fund, in the current year if unrestricted, or deferred to the year in which the related expense is incurred where the use of income is stipulated by the donor. Investment income, which is recorded on the accrual basis, includes interest income, dividends, and net realized and unrealized gains (losses) on securities.

(e) Cash and Cash Equivalents
Cash and cash equivalents consist of cash and externally managed money market funds which together with accrued interest income approximates fair value given the short-term nature of these investments.

(f) Inventories
Inventories of supplies and merchandise are recorded at the lower of cost, determined on a weighted-average costs basis, and net realizable value.

(g) Endowment and Other Investments
Endowment and other investments are classified as held for trading and stated at fair value. In determining fair values, adjustments have not been made for transaction costs. The change in the fair value of investments at the beginning and end of each year is reflected in the statement of revenue and expense and changes in unrestricted net assets or in the statement of financial position in deferred contributions if the income is externally restricted. Fixed income securities, equities and pooled funds are valued at year-end quoted closing market prices. Security acquisitions and disposals are recorded as of the date traded.

(h) Capital Assets
Capital assets acquired and constructed by the University are recorded at cost. Donated capital assets are recorded at their fair market value on the date of donation. Capital assets subject to depreciation in their value are depreciated on a straight-line basis over their estimated useful lives as shown in the schedule below. Depreciation is provided on assets as they become available for service. Land, works of art, and the Library’s Special Collections are not depreciated as they are deemed to have permanent value. When a capital asset no longer contributes to the University’s ability to provide services, its carrying value is written down to its residual value with no reversals of such write downs in subsequent periods.

(i) Asset Retirement Obligations
Asset retirement obligations are recognized in the period in which they are incurred if a reasonable estimate of fair value can be made. The associated retirement costs are capitalized as part of the carrying amount of the long-lived asset and depreciated over the life of the asset. At this time, the University has determined that there are no significant retirement obligations with respect to its assets.

(j) Pledges, Gifts-in-Kind and Contributed Services
Pledges from donors are recorded when payment is received by the University or the transfer of property is completed since their ultimate collection cannot be reasonably assured until that time. Gifts-in-kind include securities, equipment, books, manuscripts, artwork and artifacts
which are recorded in the financial statements at their fair value at the time of donation. The University acknowledges the substantial and significant services provided by its many volunteers. The value of these services is not determinable and is not recorded in the financial statements.

(k) Pension and Other Employee Future Benefits
The costs of pension and other future employee benefits are recognized on an accrual basis over the working lives of employees as detailed in note 9.

(l) Long term debt
Long term debt is recorded on the amortized cost basis.

(m) Use of Estimates
The preparation of financial statements in conformity with Canadian generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of revenue and expense during the reporting period. Significant items subject to such estimates and assumptions include the carrying amount of capital assets; valuation allowances for receivables and inventories; the valuation of financial instruments; and assets and obligations related to employee future benefits. Actual results could differ from those estimates.

(n) Financial Instruments
The University’s financial instruments are classified into three categories. Cash and short-term investments, derivative instruments, long term receivables with the exception of receivables from related parties, and endowment and other investments are classified as held-for-trading and carried at fair value. Changes in fair value are recorded in operations. Accounts receivable and related party long term receivables are classified as other loans and receivables; accounts payable and long term debt are classified as other financial liabilities; both categories are carried at amortized cost using the effective yield method. It is management’s opinion that the University is not exposed to significant currency or credit risk arising from these instruments. The University is exposed to interest rate risk as outlined in notes 5 and 10.

The University has elected to continue to apply financial instruments disclosure and presentation standards in accordance with CICA Handbook Section 3861.

(o) Future Accounting Framework
Effective April 1, 2012, the University will transition to a new accounting framework which will include Public Sector Accounting Standards supplemented by directives from the Government of British Columbia’s Treasury Board. The transition to the new framework will be applied on a retroactive basis. The University is reviewing the impact of these standards on the financial statements.

</table>

**NOTE 9 EMPLOYEE FUTURE BENEFITS**

Employee future benefit liabilities arise in connection with the University’s self-funded group life insurance and long term disability plans. The University maintains pension plans, other retirement and supplementary benefit arrangements, and long term disability plans for substantially all of its continuing employees.

(a) The pension fund for full-time continuing faculty and administrative and academic professional staff is referred to as the Combination Plan. This plan’s benefits are derived primarily from defined contributions. If a retiring member selects an internal annuity with the defined contribution account, the annuity may be supplemented from a defined benefit provision to bring total benefits up to a defined benefit minimum. Most members do not qualify for a supplement because the defined contribution benefits usually exceed the minimum defined benefit. Since 1991, only fifty-four members have received a defined benefit supplement. At December 31, 2011, forty-seven members were receiving supplements that totalled $16,500 of a total pension payroll of $1.3 million per month. As a result, this plan has been accounted for as a defined contribution plan. The latest actuarial valuation as at December 31, 2009 showed that the accrued formula pension benefit liabilities of the Combination Plan were fully funded although the actuary has recommended that contributions be increased to maintain financial sustainability of the plan. The next valuation will be as at December 31, 2012. A pure defined contribution plan is available for part-time faculty and administrative and academic professional staff who meet certain eligibility criteria. The University has made contributions to these two plans during the year of $17,542,000 (2011 - $13,609,000) and recorded them as a pension expense.

The University provides supplemental pensions in excess of those provided under registered plans. They are fully funded out of the general assets of the University. The accrued liabilities of these arrangements total $4,285,000 as at March 31, 2012 (2011 - $4,294,000). The University paid supplemental pension benefits of $90,000 in the year (2011 - $57,000) and recorded employee benefit expense of $123,000 (2011 - $115,000). The supplemental pension obligations are complementary to the Combination Plan and as a result are similarly accounted for as defined contribution arrangements.
(b) The pension plan for employees other than faculty and professional staff is a defined benefit pension plan. This plan provides pension benefits based on years of service. The cost of these benefits is determined using the projected benefit method prorated on employment service and is expensed as the services are rendered. The latest triennial actuarial valuation completed as at December 31, 2010 reported a going concern surplus and a solvency deficiency (i.e. if the plan were to be wound up on that date) of $33,000,000. The B.C. Pension Benefits Standards Act requires minimum annual contributions or the use of letters of credit to fund a solvency deficiency. The University has chosen to arrange letters of credit in the amount of $6,975,000 to satisfy the current year’s requirement and in years 2013 through 2016 a further $6,900,000 per year will be required to satisfy the contribution requirement.

The following disclosure reflects on a prospective basis the updated valuations and liability estimates by management to December 31, 2011:

<table>

| Plan Assets |         |
|            |         |
| Fair value of plan assets, beginning of year | 158,076 |
| Actual return on plan assets | 3,862 |
| Contributions by the University | 5,903 |
| Contributions by employees | 2,146 |
| Benefit payments | (7,161) |
| Fair value of plan assets, end of year | 162,826 |

| Plan deficit, end of year | (3,110) |
| Unamortized net actuarial loss | 5,947 |
| Unamortized past service costs | (1,321) |
| Accrued benefit asset, end of year | 1,516 |

significant assumptions adopted and used by the actuary in 2011 in prospectively measuring the pension benefit obligation are an expected long-term rate of return on plan assets of 6.00% (2011 – 5.80%), a discount rate of 6.00% (2011 – 5.80%), and salary increases of 3.25% (2011 – 3.50%) which factors include a cost of living increase assumption of 2.25% (2011 – 2.50%).

The net pension expense for the above staff pension plan for the year ended December 31, 2011 was $4,706,000 (2011 - $5,025,000). The Supplementary Retirement Benefit Account is a separate fund available to provide pensioners over the age of 65 with supplemental indexing against inflation beyond that provided by the basic plan above. It is accounted for as a defined contribution plan, with University contributions during the year of $115,000 (2011 - $114,000).

(c) The University administers an employee-funded long-term disability plan for faculty and administrative and academic professional staff. It is self-insured and the liability for the discounted present value of estimated future payments to current claimants is recorded.
An insured long-term disability plan funded entirely by the University was commenced for other staff on July 1, 2000. The University contribution for the year ending March 31, 2012 was $1,110,000 (2011 - $1,189,000).

Summary of employee future benefit obligations:

</table>
Principal and interest payments of these debt instruments are made primarily from the Ancillary Enterprises Fund except for the Technology Enterprise Facility debt and the Science, Social Science and Support Building debt whose principal is paid from the Capital Fund and interest paid from the General Operating Fund.

The University has two interest rate swap agreements associated with the Royal Bank of Canada and BC Immigration Investment Fund (BCIIF) debts. The BCIIF swap was negotiated to fix the effective interest rate at 5.138%, for an additional 10 years, commencing in 2017. The fair value of the liabilities for these instruments as at March 31, 2012 are $2,055,000 (2011 – $1,304,000) and $245,000 (2011 – $32,000).

During the year the University repaid the Province of British Columbia bond related to student residences with an amortized cost of $9,749,000 with the corresponding sinking fund with a fair value at the time of repayment of $14,379,843.

Annual payments of principal, including sinking fund requirements, due in each of the next five fiscal years are as follows:

**NOTE 11 UNAMORTIZED DEFERRED CAPITAL CONTRIBUTIONS**

Unamortized deferred capital contributions represent the externally restricted portion of capital contributions which will be recognized as revenue in future periods corresponding to or offsetting the depreciation expense of the related capital assets. No such offset is applicable to depreciable capital assets for which the University has not received specific funding and which are acquired out of unrestricted government grants or other revenue, as is the case with most library holdings and teaching equipment. Changes in unamortized deferred capital contributions are as follows:

<table>
<thead>
<tr>
<th>March 31</th>
<th>2012</th>
<th>2011</th>
</tr>
</thead>
<tbody>
<tr>
<td>Balance, beginning of year</td>

Other: 527, 240
Transfer from (to) deferred contributions: 5,841, (18,362)
Total: 24,924, 15,054
NOTE 14 ENDOWMENT NET ASSETS

The University’s endowments are held primarily by the University of Victoria Foundation and consist of restricted donations and capitalized investment income which maintains the economic value of the endowments over time. The Foundation also maintains a stabilization account for each of its endowments which are intended to hold surplus investment income in reserve to address fluctuations in investment returns and to ensure spending distributions remain stable each year. Stabilization account balances change with the distribution of net investment income or losses, allocation to spending accounts to pay awards and allocations to endowment principal to capitalize income.

The balance shown does not include endowment principal with fair value of $5,705,000 (2011 - $5,794,000) and book value of $4,820,000 (2011 - $4,820,000) held by the Vancouver Foundation. The excluded principal is not owned or controlled by the University, but income from it is paid to the University to be used for specific purposes.

NOTE 15 INTERNALLY RESTRICTED NET ASSETS

Internally restricted fund balances represent the University’s net assets set aside or appropriated by the Board of Governors for the following purposes:

<table>
<thead>
<tr>

</tbody>
</table>

NOTE 16 DONATION PLEDGES AND GIFTS IN KIND

The total donations which have been pledged but not received as at March 31, 2012 are $28,487,000 (2011 - $25,422,000). These pledges are not recorded in the financial statements (note 2 (j)).

During the year ended March 31, 2012, the University recorded donated gifts-in-kind with an estimated value at the date of receipt totalling $902,000 (2011 - $10,598,000). Gifts in kind include securities, equipment, books, manuscripts, and artwork.

NOTE 17 JOINT VENTURES AND RELATED PARTIES THAT ARE NOT CONSOLIDATED

The University is a member of the two joint ventures described below which are recorded using the equity method of accounting. No monetary gain is expected from these entities.

(a) The University is one of eleven university members of a consortium which manages the Tri-Universities Meson Facility (TRIUMF). The
facility is funded by federal government grants and the University makes no direct financial contribution.

(b) The University is one of five members of the Western Canadian Universities Marine Sciences Society (WCUMSS). The University provided a grant to the Society in 2012 of $228,000 (2011 - $238,000) which is recorded as an expense in the General Operating Fund.

The University controls two profit-oriented subsidiaries which are recorded using the equity method of accounting:

(a) Heritage Realty Properties Ltd.
(b) Vancouver Island Technology Park Trust

Financial information in respect to the University’s share of the entities recorded using the equity method is as follows:

<table>
<thead>
<tr>
<th>Year Ended March 31 ( in thousands of dollars)</th>

The University of Victoria Hong Kong Foundation Limited incorporated in November 2002 has had no material financial transactions to date.

NOTE 18 COMMITMENTS AND CONTINGENT LIABILITIES

There were $2,126,000 of commitments in regard to construction contracts at March 31, 2012 (2011 - $2,684,000).

The University’s commitments for various operating leases for the next five years are as follows: 2013 - $ 541,000; 2014 - $439,000; 2015 - $381,000; 2016 - $201,000; 2017 - $48,000.

The University is one of 58 Canadian University subscribers to CURIE, which has provided property and liability coverage to most campuses other than in Quebec and Prince Edward Island since 1988. The anticipated cost of claims based on actuarial projections is funded through member premiums. Subscribers to CURIE have exposure to premium retro-assessments should the premiums be insufficient to cover losses and expenses.

From time to time, the University is involved in litigation or proceedings relating to claims arising out of its operations in the ordinary course of business. It is the opinion of management that the aggregate amount of any potential liability is not expected to have a material adverse effect on the University’s financial position or results.
NOTE 19 CAPITAL DISCLOSURES

The University considers its capital to be its net assets, deferred capital contributions and long term debt. The University’s objectives when managing its capital are to fund its operations, capital additions, and research activity to ensure ongoing services to its students and funding agencies. Budgets are developed and monitored to ensure capital is preserved in accordance with funding terms. The University is not subject to debt covenants or any other capital requirements with respect to operating funding. Funding received for designated purposes must be used for the purpose outlined in the funding letter. The University has complied with the external restrictions on the funding provided.

NOTE 20 FUNDS HELD IN TRUST

Funds held in trust are funds held on behalf of autonomous organizations, agencies, and student societies having close connections with the University. These funds are not reported on the University’s consolidated statement of financial position (2012 - $1,722,000; 2011 - $1,593,000).

NOTE 21 COMPARATIVE INFORMATION

Certain comparative information has been reclassified to conform to the presentation adopted for the current year. In addition, during the year it was identified that unrestricted federal grants expended on capital assets were capitalized as unamortized deferred capital contributions. The comparative information was corrected for these immaterial amounts to decrease unamortized deferred capital contributions by $5,950,000 and to increase net assets invested in capital assets by $5,950,000.
## UNIVERSITY OF VICTORIA

University of Victoria  
Reconciliation Between Unaudited Fund Accounting Schedules and the Audited Deferral Method Financial Statements  
For the Year ended March 31, 2012  

Examination of Adjustments

a. Remove from revenue government grants and other revenues received for restricted purposes such as the academic building contributions and renovation grants and sponsored research grants. These are recorded as deferred contribution liabilities to be amortized into income as spent or as capital assets depreciated under deferral accounting (Note 2(d) page 16).

b. Restricted grants for acquiring capital assets are recognized as amortization of deferred capital contribution revenue in the same yearly amount as the depreciation on the capital assets is recorded as an expense.

c. Under fund accounting, pension contributions and the amount of vacation pay paid in the year are recorded as expenditures. In the audited statements, pension costs and vacation pay are expensed as entitlements are earned. In addition, the excess liability related to an employee long-term disability plan beyond the amount of the funded reserve is also expensed in the audited statements.

d. Costs associated with library acquisitions, equipment additions and replacements, construction and renovation contracts, and property acquisitions are removed from expenditures for the year. Depreciation is recorded for capital assets other than land, works of art and special library collections which do not depreciate. In the General Operating Fund, the amount of annual depreciation, less the amortization of deferred capital contributions in 'b' above, will normally approximate the budgets for library acquisitions and equipment additions/replacements.

e. Represents the spending of current year unrestricted revenue and prior year appropriations for equipment replacement to acquire capital assets, less the depreciation expense for the current year.

f. Remove from expense the principal portion of debt repayment since unlike in fund accounting neither the receipt of a loan nor its repayment are recorded as revenue and expense in the year. Interest for the year and any government grants to fund it are recorded as expenses and revenues respectively under both fund and deferral accounting.

g. Represents a reduction of internally restricted net assets corresponding to the additional expense recorded in the audited statements for vacation pay, pension expense and long-term disability, as per "c" above.

h. Represents the adjustment for the annual change in tuition revenue related to the following fiscal period recorded in deferral accounting but not fund accounting.

i. Transfer to endowment principal as recorded under fund accounting but reported a direct increase to endowment net assets under deferral.

j. Transfer funding to match future depreciation from the capitalization of construction and renovation contracts.

k. Reclassification to loss on repayment of debt.

(1) Revenues are for external sales to faculty, staff and students and do not include $1,296,000 (2011-$1,261,000) of internal sales through the Computer Store to University Departments. Of the internal cost recovery net of expenses, $144,000 (2011 - $119,000) represents the margin on those sales.
